African Philosophy:

An Essay on African Philosophical Thought Kwame Gyekye, 1995 In this sustained and nuanced attempt to define a genuinely African philosophy Kwame Gyekye rejects the idea that an African philosophy consists simply of the work of Africans writing on philosophy It must Gyekye argues arise from African thought itself relate to the culture out of which it grows and provide the possibility of a continuation of a philosophy linked to culture Offering a philosophical clarification and theology and ethics of the Akan of Ghana Gyekye argues that critical analyses of specific traditional African modes of thought are necessary to develop a distinctively African philosophy as well as cultural values in the modern world *A Short History of African Philosophy, Second Edition* Barry Hallen, 2009-09-03 A Short History of African Philosophy discusses major ideas figures and schools of thought in philosophy in the African context While drawing out critical issues in the formation of African philosophy Barry Hallen focuses on recent scholarship and relevant debates that have made African philosophy critical to understanding the rich and complex cultural heritage of the continent This revised edition expands the historical perspective takes account of recent discoveries and new canonical figures highlights new discussions about gender as a cultural and philosophical phenomenon clarifies issues regarding indigenous cultures and human rights and builds on the notion that African philosophy shares methods and concerns of philosophy worldwide This short reference is an essential resource for students scholars and general readers [African Philosophy Essential Read](#) Tsenay Serequeberhan, 1991 The eleven papers in this anthology all by Africans represent a variety of philosophical positions that are central to the debate in and on African philosophy as it has developed thus far An introduction essay explores the historical political and existential context of the debate and is followed by a presentation of the documentary orientation ethnophilosophy The five papers that follow articulate positions that reject ethnophilosophy and emphasize its scientific approach to philosophy Finally the last four papers articulate philosophical positions reflecting the historicity of the African situation Throughout the anthology is informed by the belief that African philosophy is a historically engaged activity aimed at the political empowerment of the African people Many of the papers in African Philosophy are either published here or in English for the first time or are not easily available in English anywhere else **African Philosophy** Lee M. Brown, 2004 This is a collection of essays that address epistemological and metaphysical concerns that have emerged from the sub-Saharan regions of Africa The focus of the book is on traditional African conceptions of mind person personal identity truth knowledge understanding objectivity and reality *A Companion to African Philosophy* Kwasi Wiredu, 2008-04-15 This volume of newly commissioned essays provides comprehensive coverage of African philosophy ranging across disciplines and throughout the ages Offers a distinctive historical treatment of African philosophy Covers all the main branches of philosophy as addressed in the African tradition Includes accounts of pre colonial African philosophy and contemporary political thought *An Introduction to African Philosophy* Maurice Muhatia Makumba, 2007 [The Idea of African Philosophy](#) Olusegun Oladipo, 1992 *An*

Introduction to African Philosophy Samuel Oluoch Imbo, 1998 Organized topically rather than historically this book provides an excellent introduction to the subject of African Philosophy Samuel Oluoch Imbo synthesizes the ideas of key African philosophers into an accessible narrative The author focuses on five central questions What are the definitions of African philosophy Is ethno philosophy really philosophy What are the dangers of an African philosophy that claims to be unique Can African philosophy be done in foreign languages such as English and French Are there useful ways to make connections between African philosophy African American philosophy and women s studies By making cross disciplinary and transnational connections Imbo stakes out an important place for African philosophy Imbo s book is an invaluable introduction to this dynamic and growing area of study

The African Philosophy Reader Pieter Hendrik Coetzee, A. P. J. Roux, 1998 This collection provides a thorough introduction to African philosophy literature religion and anthropology through twenty five readings from key thinkers They discuss topics such as African culture epistemology metaphysics and religion political philosophy aesthetics and explore rationality and explanation in an African context

African Philosophy Wilfred Lajul, 2013-12-29 African philosophy has for long been rejected on the basis that it is not known or has not been written down Behind this view is the idealist presumption that for something to exist it must first be perceived However for something to be perceived it must first exist African Philosophy Critical Dimensions examines what constitutes African philosophy in terms of its meaning foundation sources methodology characteristics and relevance The book analyses traditional African philosophy from the political social ethical epistemological and metaphysical angles The book further critically discusses modern African political philosophy modern African social philosophy modern African economic philosophy and modern African philosophy of religion It ends with the identification of the different conclusions that were derived from the study and general recommendations some specifically for researchers and writers especially in the area of African philosophy Wilfred Lajul joins other authentic voices examining African Philosophy

Ka Osi Sọ Onye: African Philosophy in the Postmodern Era Jonathan Chimakonam, Edwin Etieyibo, 2018-02-28 This collection is about composing thought at the level of modernism and decomposing it at the postmodern level where many cocks might crow with African philosophy as a focal point It has two parts part one is titled *The Journey of Reason in African Philosophy* and part two is titled *African Philosophy and Postmodern Thinking* There are seven chapters in both parts Five of the essays are reprinted here as important selections while nine are completely new essays commissioned for this book As their titles suggest in part one African philosophy is unfolded in the manifestation of reason as embedded in modern thought while in part two it draws the effect of reason as implicated in the postmodern orientation While part one strikes at what V Y Mudimbe calls the colonising structure or the Greco European logo phallo euro centricism in thought part two bashes the excesses of modernism and partly valorises postmodernism In some chapters modernism is presented as an intellectual version of communalism characterised by the cliché our people say Our thinking is that the voice of reason is not the voice of the people

but the voice of an individual The idea of this book is to open new vistas for the discipline of African philosophy African philosophy is thus presented as a disagreement discourse Without rivalry of thoughts Africa will settle for far less This gives postmodernism an important place perhaps deservedly more important than history of philosophy allocates to it It is that philosophical moment that says philosophers must cease speaking like gods in their hegemonic cultural shrines and begin to converse across borders with one another In this conversation the goal for African philosophers must not be to find final answers but to sustain the conversation which alone can extend human reason to its furthest reaches

Sage Philosophy Henry Odera Oruka, 2022-06-08 Sage Philosophy is an anthology of three main parts Part one contains papers by Odera Oruka clearing the way and arguing about his research over the last decade on indigenous sages in Kenya Part Two introduces verbatim interviews with a given number of those sages while Part Three consists of published papers by scholars who are critics or commentators on the Oruka project The author has spent the last decade in Kenya carrying out his research It is the general stand of the book that the sages turn out to be thinkers or philosophers in no trivial sense despite their lack of modern formal education This study is a critique for all those scholars who hitherto have found no practice of critical philosophy in traditional Africa

Philosophy from Africa Pieter Hendrik Coetzee, A. P. J. Roux, 1998 The perspectives provided in this volume offer wise and refreshing alternatives to problems of self and society culture aesthetics metaphysics and religion

Understanding African Philosophy Richard H. Bell, 2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality

African Philosophy Paulin J. Hountondji, 1983

African Philosophy and the Quest for Autonomy Leonhard Praeg, 2022-06-08 As academic subject African philosophy is predominantly concerned with epistemology It aims at re-presenting a lost body of authentic African thought This apparently austere historical concern is framed by a grand narrative of liberation that cannot but politicise the quest for epistemological autonomy By politicise I mean that the desire to recover an authentic African epistemology in order to establish African philosophy as autonomous subject ironically reiterates Western enlightenment notions of the autonomous subject Here in the pursuit of an autonomous subject the terms of historical oppression are necessarily duplicated in the terms of liberation In this study I use the term disfigurement to refer to the double bind peculiar to post-coloniality in which the African subject finds itself when it has to establish and affirm a sense of apartheid in order to confirm the assumption of difference by inventing its own autonomy in a way that ironically conflicts with an African conception of the autonomous subject The transcendental concern with epistemological authenticity and autonomy indicative of an oppressive desire for Western style autonomy necessary as it may be in a post-colonial context is placed in an ethical

framework that seeks to remain faithful to the African dictum of identity and autonomy I am because we are Whereas the first three chapters are concerned with the transcendental question what is African philosophy the fourth and last chapter situates the ethical framework within which this question arises in the context of the recently completed South African Truth and Reconciliation Commission

African Philosophy Théophile Obenga,2004 The Method and Principles of Complementary Reflection in and Beyond African Philosophy Innocent Asouzu,2005 Questions relating to types of philosophical trends within African philosophy can be very decisive for any idea of African philosophy In this strikingly novel approach to African Philosophy the author explores a complementary philosophical trend that goes back to those he calls anonymous traditional African philosophers Based on their thoughts he articulates a distinctive variant of the principles method and imperative of complementarity Ibu anyi danda around which he builds his system He anchors his reflection on such ambient concepts as the joy of being jide k iji fragmentation wholeness and future reference

The Substance of African Philosophy Campbell Shittu Momoh,1989 The African Philosophy Reader P.H. Coetzee,A.P.J. Roux,2004-03-01 Divided into eight sections each with introductory essays the selections offer rich and detailed insights into a diverse multinational philosophical landscape Revealed in this pathbreaking work is the way in which traditional philosophical issues related to ethics metaphysics and epistemology for instance take on specific forms in Africa s postcolonial struggles Much of its moral political and social philosophy is concerned with the turbulent processes of embracing modern identities while protecting ancient cultures
