Mbiti, 1990 African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions Mbiti adds a new dimension to the understanding of the history thinking and life throughout the African continent Religion is approached from an African point of view but is as accessible to readers who belong to non African societies as it is to those who have grown up in African nations Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for anyone concerned with African religion history philosophy anthropology or general African studies

Philosophy of Religion Ikechukwu Anthony Kanu, 2018-08-31 The present work focuses on the major inquiries in philosophy of religion This work is unique in its own way in the sense that it introduces something new to the corpus of

literature that is often referred to as philosophy of religion. Introduction to African Religion John S. Mbiti, 1975. Discusses the philosophies, rituals and ceremonies of various African religions and their influence in the lives of the people. [African Religions and Philosophy](#) John S. Ph. D.. Mbiti, 1977. [Journal of African Religion and Philosophy](#), 1996. [African Theology, Philosophy, and Religions](#) Julius Gathogo, Chammah J. Kaunda, 2020-11-24. In African Theology Philosophy and Religions. Celebrating John Samuel Mbiti's Contribution. Contributors explore John Samuel Mbiti's contributions to African scholarship and demonstrate how he broke through the western glass ceiling of scholarship and made African informed and African shaped scholarship a reality. Contributors examine the far reaching implications of Mbiti's scholarship arguing that he shifted the contemporary African Christian landscape and informed global expressions of Christianity. African Theology Philosophy and Religions analyzes Mbiti's scholarship and shows that his theories are malleable and fluid allowing a new generation of scholars to reinterpret, reconstruct and further develop his theories. This collection brings together contributors from a wide range of disciplines to study John Samuel Mbiti as the father of contemporary African theology and grapple with questions Africans face in the twenty first century.

Contemporary African Philosophy of Religion Ada Agada, Aribiah D. Attoe, Jonathan O. Chimakonam, 2026-02-06. This book introduces fundamental questions and problems driving debates in contemporary African philosophy of religion which has emerged recently as one of the most vibrant new fields of African philosophy. The chapters in this book respond to African God talk and approach questions like the nature of God, the problem of evil, death and immortality, transhumanism, moral enhancement, atheism, meaningful existence and the decolonisation of African religious concepts. This book reflects the diversity of voices and perspectives in the literature with its critical focus on such themes as the extent of the powers of the limited God, schools of thought in contemporary African philosophy of religion, the monotheistic credentials of African Traditional Religion (ATR) and the panpsychist presuppositions of African philosophy and ATR. The book addresses the possibility of immortality, the good life, decolonising the concept of Esu Igbo, notions of the person and the problem of evil and transhumanist ideals and the limited harmony God. Finally, the book highlights the significance of theosophical debate between the African perfect God perspective championed by philosophers like John S. Mbiti, Kwame Gyekye and Egunoluwa O. Oduwole and the African limited God view defended by philosophers like Kwasi Wiredu, Okot p. Bitek, John A. I. Bewaji, Ada Agada and Aribiah David Attoe. The book is of interest to academics, researchers and postgraduate students active in the fields of African philosophy, African religious studies, African studies, comparative philosophy, global philosophy of religion, theology and intercultural and comparative religious studies.

African Religions & Philosophy John Samuel Mbiti, 1982. **Panentheism and Concepts of God in African Traditional Religions**

Emmanuel Ofuasia, 2026-01-01 This book offers a bold re-examination of how African spirituality and religion are understood challenging centuries of misrepresentation shaped by colonial and Abrahamic thought It argues that describing African religions through any form of modified monotheism whether implicit diffused or accommodated distorts their true nature and philosophical depth Critiquing both colonial and postcolonial scholarship the author shows how figures such as John Mbiti Bolaji Idowu John Bewaji Thaddeus Metz Motsamai Molefe and Kirk Lougheed remain confined by Abrahamic categories that obscure African metaphysical perspectives Drawing on the ritual systems and spiritual knowledge of six major Afro religious traditions Kemet Yor b Anlo Ewe Igbo Akan and Shona the book advances panentheism a non Abrahamic monotheistic framework as the most accurate model for understanding African religions Combining philosophical analysis with ethnographic insight it redefines the conceptual vocabulary for African religious scholarship resolving long standing debates and demonstrating the value of thick description for studying African religiosity An original contribution to African philosophy religious studies and decolonial theory this book reshapes how African spirituality is to be studied and understood
