A Nimble Arc Emilie Boone,2023-08-28 While James Van Der Zee is widely known and praised for his studio portraits from the Harlem Renaissance era much of the diversity and expansive reach of his work has been overlooked From the major role his studio played for decades photographing ordinary people and events in the Harlem community to the inclusion of his photographs in the landmark Harlem on My Mind exhibition at the Metropolitan Museum of Art in 1969 Van Der Zee was a foundational Black photographer whose work illustrates the shifting ways photography serves as a constitutive force within Black life In *A Nimble Arc* Emilie Boone considers Van Der Zee's photographic work over the course of the twentieth century showing how it foregrounded aspects of Black daily life in the United States and in the larger African diaspora Boone argues that Van Der Zee's work exists at the crossroads of art and the vernacular challenging the distinction between canonical art photographs and the kind of output common to commercial photography studios Boone's account recasts our understanding not only of this celebrated figure but of photography within the arc of quotidian Black life *Peacemakers in Action* David Little,2007 *Peacemakers in Action* explores the conflicts and the stories of 15 individuals identified by the Tanenbaum Center for Interreligious Understanding from regions as far flung as West Papua Indonesia the Middle East Northern Ireland Nigeria El Salvador and South Africa *Civil Wars and Coups D'Etat in West Africa* Issaka K. Souaré,2006 Working from a thematic empirical analytical approach this work surveys the root causes of civil wars and military coups d'etat in West Africa analyzes the implications for the region as a whole and identifies possible solutions to these armed conflicts *African Renaissance* ,2005 *Book Review Index - 2009 Cumulation* Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *Globalization and Social Inequality* John Chidubem Nwaogaidu,2013 Globalization tends to promote global homogenization of cultures but its integration processes and interaction systems are hampered by unequal participation governed by the ethos of capitalism This ethos promotes instead individual interests against societal interests As the danger of individualism increasingly constitutes a fundamental community burden it significantly compromises the nation state threatening the social formation and relational outcomes

Therefore socially integrated societies with collective initiatives managed by interventionist public institutions with regulative mechanisms and good governance have more potential for equitable development and economic growth This book examines the impact of globalization and social inequality through an analysis of the impact on society in Nigeria Series Sociology Soziologie Vol 80 **AIDS, South Africa, and the Politics of Knowledge** Jeremy R. Youde,2016-03-23 Through an in depth examination of the interactions between the South African government and the international AIDS control regime Jeremy Youde examines not only the emergence of an epistemic community but also the development of a counter epistemic community offering fundamentally different understandings of AIDS and radically different policy prescriptions In addition individuals have become influential in the crafting of the South African government s AIDS policies despite universal condemnation from the international scientific community This study highlights the relevance and importance of Africa to international affairs The actions of African states call into question many of our basic assumptions and challenge us to refine our analytical framework It is ideally suited to scholars interested in African studies international organizations global governance and infectious diseases **Minerva** ,2006 *Spatial Theories of Education* Kalervo N. Gulson,Colin Symes,2007-11-21 This collection of original work within the sociology of education draws on the spatial turn in contemporary social theory The premise of this book is that drawing on theories of space allows for a more sophisticated understanding of the competing rationalities underlying educational policy change social inequality and cultural practices The contributors work a spatial dimension into the consideration of educational phenomena and illustrate its explanatory potential in a range of domains urban renewal globalisation race markets and school choice suburbanisation regional and rural settings and youth and student culture Media Review Digest C.
