People in Bondage L. H. Ofosu-Appiah, 1971 A history of the slave trade from ancient and medieval times to its abolition after the Civil

War **Slavery in Africa** Suzanne Miers, Igor Kopytoff, 1977 This collection of sixteen short papers together with a complex and very much longer introductory essay by the editors on African Slavery as an Institution of Marginality constitutes an impressive attempt by anthropologists and historians to explore describe and analyze some of the various kinds of human bondage within a number of precolonial African societies It is important to note that in spite of the precolonial emphasis of the volume all of the essays are based at least partly on anthropological or ethnohistorical field research carried out since 1959 All but one have been augmented greatly by more conventional historical research in published as well as archival sources And although the volume s focus is upon the structures and conditions of servitude within the several African societies described many of the essays illustrate and some discuss the conceptual as well as the practical difficulties of separating the institutions and customs of domestic African slavery from those of the European dominated commercial slave trade in which many of the societies participated from JSTOR <http://www.jstor.org> May 24 2013 **The Atlantic Slave Trade** Johannes Postma, 2003-06-30 Drawing on surviving firsthand accounts the author explains the context of the slave trade from the moment of enslavement in Africa to the sale of the slaves in American markets [Transformations in Slavery](#) Paul E. Lovejoy, 2011-10-10 This history of African slavery from the fifteenth to the early twentieth centuries examines how indigenous African slavery developed within an international context Paul E Lovejoy discusses the medieval Islamic slave trade and the Atlantic trade as well as the enslavement process and the marketing of slaves He considers the impact of European abolition and assesses slavery s role in African history The book corrects the accepted interpretation that African slavery was mild and resulted in the slaves assimilation Instead slaves were used extensively in production although the exploitation methods and the relationships to world markets differed from those in the Americas Nevertheless slavery in Africa like slavery in the Americas developed from its position on the periphery of capitalist Europe This new edition revises all statistical material on the slave trade demography and incorporates recent research and an updated bibliography **In the Shadow of Slavery** Judith Carney, Richard Nicholas Rosomoff, 2009 In the Shadow of Slavery explores the wealth of plant life brought to the Americas by slaves and slave ships as provisions medicines cordage and bedding and afterwards cultivated in garden plots These included coffee watermelon and okra as well as the constituents of many well known products **Women and Slavery: Africa, the Indian Ocean world, and the medieval north Atlantic** Gwyn Campbell, Suzanne Miers, Joseph Calder Miller, 2007 The particular experience of enslaved women across different cultures and many different eras is the focus of this work *Shaping the New World* Eric Guest Nellis, Canadian Historical Association, 2013-01-01 *Shaping the New World* introduces students to the origins growth and consolidation of African slavery in the Americas and race based slavery s impact on the economic social and cultural development of the New World **Generations of Captivity** Ira Berlin, 2004-09-30 Ira Berlin traces the history of African American slavery in the United States from its beginnings in the seventeenth century to its fiery demise nearly three hundred years later Most Americans

black and white have a singular vision of slavery one fixed in the mid nineteenth century when most American slaves grew cotton resided in the deep South and subscribed to Christianity Here however Berlin offers a dynamic vision a major reinterpretation in which slaves and their owners continually renegotiated the terms of captivity Slavery was thus made and remade by successive generations of Africans and African Americans who lived through settlement and adaptation plantation life economic transformations revolution forced migration war and ultimately emancipation Berlin s understanding of the processes that continually transformed the lives of slaves makes *Generations of Captivity* essential reading for anyone interested in the evolution of antebellum America Connecting the Charter Generation to the development of Atlantic society in the seventeenth century the Plantation Generation to the reconstruction of colonial society in the eighteenth century the Revolutionary Generation to the Age of Revolutions and the Migration Generation to American expansionism in the nineteenth century Berlin integrates the history of slavery into the larger story of American life He demonstrates how enslaved black people by adapting to changing circumstances prepared for the moment when they could seize liberty and declare themselves the Freedom Generation This epic story told by a master historian provides a rich understanding of the experience of African American slaves an experience that continues to mobilize American thought and passions today

From Africa to Brazil Walter Hawthorne,2010-09-13 *From Africa to Brazil* traces the flows of enslaved Africans from the broad region of Africa called Upper Guinea to Amazonia Brazil These two regions though separated by an ocean were made one by a slave route Walter Hawthorne considers why planters in Amazonia wanted African slaves why and how those sent to Amazonia were enslaved and what their Middle Passage experience was like The book is also concerned with how Africans in diaspora shaped labor regimes determined the nature of their family lives and crafted religious beliefs that were similar to those they had known before enslavement It presents the only book length examination of African slavery in Amazonia and identifies with precision the locations in Africa from where members of a large diaspora in the Americas hailed *From Africa to Brazil* also proposes new directions for scholarship focused on how immigrant groups created new or recreated old cultures

Slavery and African Life Patrick Manning,1990-09-28 This book summarizes a wide range of recent literature on slavery for all of

Du Bois, 2014-05-05 Well documented classic examines the South's plantation economy and its influence on the slave trade the role of Northern merchants in financing the slave trade during the 19th century and much more **Anti-slavery in America from the Introduction of African Slaves to the Prohibition of the Slave Trade (1619-1808)** Mary Stoughton Locke, 1901

Slavery in Africa and the Caribbean Olatunji Ojo, Nadine Hunt, 2020-05-28 For over four hundred years thousands of African men and women were taken from their homeland and transported across the world to be sold into slavery The history of this startling and horrific period is perennially important and recent scholarship has sought to uncover the experiences of the slaves themselves in order to uncover the voices of its many victims *Slavery and Africa in the Caribbean* analyses the written sources which have survived demonstrating how many Africans coped by adopting a flexible identity in order to negotiate the cultural differences in African European and Islamic systems of slavery An important work based on Jamaican and African archival sources this book will appeal to students and scholars who are interested in slavery gender identity religion colonialism and the African diaspora *The Making of New World Slavery* Robin Blackburn, 1997 At the time when European powers colonized the Americas the institution of slavery had almost disappeared from Europe itself Having overcome an institution widely regarded as oppressive why did they sponsor the construction of racial slavery in their new colonies Robin Blackburn traces European doctrines of race and slavery from medieval times to the early modern epoch and finds that the stigmatization of the ethno religious Other was given a callous twist by a new culture of consumption freed from an earlier moral economy *The Making of New World Slavery* argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to batten on this commerce and unsuccessfully to regulate slavery and race Successive chapters of the book consider the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Each are shown to have contributed something to the eventual consolidation of racial slavery and to the plantation revolution of the seventeenth and eighteenth centuries It is shown that plantation slavery emerged from the impulses of civil society rather than from the strategies of the individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade premised on the killing toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West *Slavery in Africa, the disease and the remedy* Verney Lovett Cameron, 1888
