**Oral History in a Wounded Country** Philippe Denis, Radikobo Ntsimane, 2008 With the end of apartheid and the exciting but elusive advent of a new nation South Africa is witness to the emergence of a new generation of oral historians whose aim is to develop a broader more inclusive and culturally sensitive understanding of the South African past In a country still wounded by a legacy of racial discrimination the retrieving of oral memories is a task more urgent than ever Oral History in a Wounded Country shows how the cultural political socio economic and intellectual evolutions that gave birth to South Africa as we know it today affect the oral history process It will help practitioners whether they use oral history as one technique among others to gain a better knowledge of the past or envisage oral history as an academic discipline in its own right to reflect critically on their practice and find better ways of handling the interview process The challenge is to appreciate the complexity of South Africa's diverse histories while being attentive to the dynamics of the interview and their effect on both interviewers and interviewees sense of identity *Research in African Literatures*, 2003 Vol 1 spring 1970 include A Bibliography of American doctoral dissertations on African literature compiled by Nancy J Schmidt *The International Journal of African Historical Studies*, 2008 *Biography*, 2002 *The Assassination of Herbert Chitepo* Luise White, 2003 Luise White examines the controversial assassination of Herbert Chitepo in 1975 from the perspective of the several confessions many accusations of responsibility that have been made She assesses why this murder continues to incite conflict in Zimbabwean politics

**Native Sons** Gregory Mann, 2006-07-19 For much of the twentieth century France recruited colonial subjects from sub Saharan Africa to serve in its military sending West African soldiers to fight its battles in Europe Southeast Asia and North Africa In this exemplary contribution to the new imperial history Gregory Mann argues that this shared military experience between France and Africa was fundamental not only to their colonial relationship but also to the reconfiguration of that relationship in the postcolonial era Mann explains that in the early twenty first century among Africans in France and Africa and particularly in Mali where Mann conducted his research the belief that France has not adequately recognized and compensated the African veterans of its wars is widely held and frequently invoked It continues to animate the political relationship between France and Africa especially debates about African

immigration to France Focusing on the period between World War I and 1968 Mann draws on archival research and extensive interviews with surviving Malian veterans of French wars to explore the experiences of the African soldiers He describes the effects their long absences and infrequent homecomings had on these men and their communities he considers the veterans status within contemporary Malian society and he examines their efforts to claim recognition and pensions from France Mann contends that Mali is as much a postslavery society as it is a postcolonial one and that specific ideas about reciprocity mutual obligation and uneven exchange that had developed during the era of slavery remain influential today informing Malians conviction that France owes them a blood debt for the military service of African soldiers in French wars

**The Review of Archaeology** ,2007      **The Demographics of Empire** Karl Ittmann,Dennis D. Cordell,Gregory H. Maddox,2010-10-05 The Demographics of Empire is a collection of essays examining the multifaceted nature of the colonial science of demography in the last two centuries The contributing scholars of Africa and the British and French empires focus on three questions How have historians demographers and other social scientists understood colonial populations What were the demographic realities of African societies and how did they affect colonial systems of power Finally how did demographic theories developed in Europe shape policies and administrative structures in the colonies The essays approach the subject as either broad analyses of major demographic questions in Africa s history or focused case studies that demonstrate how particular historical circumstances in individual African societies contributed to differing levels of fertility mortality and migration Together the contributors to The Demographics of Empire question demographic orthodoxy and in particular the assumption that African societies in the past exhibited a single demographic regime characterized by high fertility and high mortality      *Africa After Gender?* Catherine M.
