Chocolate Cities Marcus Anthony Hunter, Zandria Robinson, 2018-01-16. When you think of a map of the United States what do you see? Now think of the Seattle that begot Jimi Hendrix. The Dallas that shaped Erykah Badu. The Holly Springs Mississippi that compelled Ida B Wells to activism against lynching. The Birmingham where Martin Luther King Jr penned his most famous missive. Now how do you see the United States? Chocolate Cities offers a new cartography of the United States: a Black Map that more accurately reflects the lived experiences and the future of Black life in America. Drawing on cultural sources such as film music fiction and plays and on traditional resources like Census data oral histories ethnographies and health and wealth data the book offers a new perspective for analyzing mapping and understanding the ebbs and flows of the Black American experience all in the cities towns neighborhoods and communities that Black Americans have created and defended. Black maps are consequentially different from our current geographical understanding of race and place in America. And as the United States moves toward a majority minority society Chocolate Cities provides a broad and necessary assessment of how racial and ethnic minorities make and change America's social economic and political landscape.
