## **Africas International Rivers:**

**Africa's International Rivers** Claudia W. Sadoff, Dale Whittington, David Grey, 2002-01-01 There are more than 60 international rivers within the continent of Africa and these shared waters will need to be developed and managed in an equitable manner in order to meet the water resource needs of the African people whilst protecting the environment Topics considered include the economics of international rivers the links between water resources management and economic growth and poverty the concept of water as an economic good and its implications and the challenges of co operative transboundary management *Water Scarcity and Conflict in African River Basins* Mahlakeng Khosi Mahlakeng, 2023-03-31 The book presents a critical and comparative analysis of the hydropolitical landscape of African transboundary river basins which for much of the past century have been affected by water scarcity River and lake basins can become a source of tension and conflict due to a complicated mix of environmental demographic diplomatic historical and geopolitical factors This book however specifically focuses on the important and often under looked role played by scarcity in generating or exacerbating conflicts in shared river basins Asserting that transboundary river basins tie states into a web of interdependence this book raises awareness of how water scarcity or the depletion of water resources complicates this relationship as nations are forced to look beyond their own borders to meet the demand for water to satisfy multiple needs Taking a comparative approach it examines three shared basins the Orange Senqu the Nile and the Niger River basins While situated in different regions all three basins are marked by serious environmental challenges that are detrimental to combustible hydro politics over such shared water resources and they provide fascinating insights into the links between climate variability and change water resources human security conflict adaptation and regime capacity Overall this book argues that conflict over transboundary resources can be prevented given the establishment of norms rules and the role of external actors that help regulate state behaviour and control their impacts This book will be of great interest to students and scholars of water resource management hydro politics environmental conflict resource scarcity and international relations It will also be of interest to policymakers involved in transboundary water resource governance *The Politics of Water in Africa* Inga M. Jacobs, 2012-07-12 This comparative study of transboundary water governance in Southern and East Africa analyzes the management norms that shape cooperative governance and regional water security *International River Basin Organizations in Sub-Saharan Africa*, 1994-01-01 World Bank Technical Paper 250 Assesses the successes and shortcomings of river basin organizations in order to help international organizations improve the management of shared water resources in the region On the African continent where **International Law** Lassa Francis Lawrecne Oppenheim, 1912 **Management of Transboundary Rivers and Lakes** Olli Varis, Cecilia Tortajada, Asit K. Biswas, 2008-03-15 Transboundary rivers and lakes are often the remaining new sources of water that can be developed for human uses These water sources were not used in the past because of the many complexities involved Written and edited by

the world's leading water and legal experts this unique and authoritative book analyses the magnitudes of the transboundary water problems in different parts of the world It also examines difficulties and constraints faced to resolve these problems

*International Law* Lassa Oppenheim, 1920      **Facing Global Environmental Change** Hans Günter Brauch, Navnita Chadha Behera, Patricia Kameri-Mbote, John Grin, Úrsula Oswald Spring, Béchir Chourou, Czeslaw Mesjasz, Heinz Krummenacher, 2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth session Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on climate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world      Books of 1912- Chicago Public Library, 1922      Publications , 1921      New Africa Edouard Eugène François Baron Descamps, 1903

**International river basin organizations in Sub-Saharan Africa** Robert Rangeley, Bocar M. Thiam, Randolph A. Andersen, Colin A. Lyle, Banco Mundial, 1994      *Partition of Africa* Great Britain. Foreign Office. Historical Section, 1920

Europe and Africa Norman Dwight Harris, 1927      **The New World** Isaiah Bowman, 1921      **American Law and Procedure** James Parker Hall, James De Witt Andrews, 1910      **Report of the Session - Asian-African Legal Consultative Committee** Asian-African Legal Consultative Committee, 1975      *Historical Light on the League to Enforce Peace* League to Enforce Peace (U.S.), 1916      **The Juridical Review** , 1920      **House documents** , 1885
