## After Reason:

**Doing Things for Reasons** Rüdiger Bittner, 2001 People do things for reasons but what are reasons and how are they related to the resulting actions Bittner explores this question and proposes an answer a reason is a response to that state of affairs Semantics for Reasons Bryan R. Weaver, Kevin Scharp, 2019-06-27 Semantics for Reasons is a book about what we mean when we talk about reasons It not only brings together the theory of reasons and natural language semantics in original ways but also sketches out a litany of implications for metaethics and the philosophy of normativity In their account of how the language of reasons works Bryan R Weaver and Kevin Scharp propose and defend a view called Question Under Discussion QUD Reasons Contextualism They use this view to argue for a series of novel positions on the ontology of reasons indexical facts the reasons to be rational debate moral reasons and the reasons first approach *The Texas criminal reports* ,1913 *Hearings on S.
