## **After Everything Western Intellectual History Since 1945:**

**After Everything** Roland N. Stromberg, 1975      **Recasting America** Lary May, 1989 The freshness of the authors approaches is salutary The collection is stimulating and valuable Joan Shelley Rubin Journal of American History      **Modern European Culture and Consciousness, 1870-1980** Paul Monaco, 1983-01-01 On both personal and public levels the past century has brought Western Europeans some of the most devastating episodes of human history Paul Monaco identifies the major modes of consciousness that Europeans have developed as ways of interpreting their experiences Europe appears to many Americans as an aging dowager with a grand past but little future Yet beyond the stereotype lies the complex reality The U S and the Soviet Union both failed to carry on the ideological and cultural traditions of the Western world to which they fell heir at the end of World War II By contrast Western Europe quickly recovered its cultural equilibrium Modern European Culture and Consciousness shows how Europe s amazing recovery took place Monaco argues that the sensibility now being forged in Europe will provide the guide to the twenty first century He illustrates this thesis by analysis of novels plays and especially motion pictures which have gradually supplanted novels      1956 Carole Fink, Frank Hadler, Tomasz Schramm, 2006      **European Intellectual History Since 1789** Roland N. Stromberg, 1990      **The Anticipation Novelists of 1950s French Science Fiction** Bradford Lyau, 2014-01-10 Following World War II the Fleuve Noir publishing house published popular American genre fiction in translation for a French audience Their imprint Anticipation specialized in science fiction but mostly eschewed translations from English preferring instead French work thus making the imprint an important outlet for native French postwar ideas and aesthetics This critical text examines in ideological terms eleven writers who published under the Anticipation imprint revealing the way these writers criticized midcentury notions of progress while adapting and reworking American genre formats      **The Fourth Turning** William Strauss, Neil Howe, 2009-01-16 NATIONAL BESTSELLER Discover the game changing theory of the cycles of history and what past generations can teach us about living through times of upheaval with deep insights into the roles that Boomers Generation X and Millennials have to play now with a new preface by Neil Howe One of the best efforts to give us an integrated vision of where we are going The Wall Street Journal First comes a High a period of confident expansion Next comes an Awakening a time of spiritual exploration and rebellion Then comes an Unraveling in which individualism triumphs over crumbling institutions Last comes a Crisis the Fourth Turning when society passes through a great and perilous gate in history William Strauss and Neil Howe will change the way you see the world and your place in it With blazing originality The Fourth Turning illuminates the past explains the present and reimagines the future Most remarkably it offers an utterly persuasive prophecy about how America s past will predict what comes next Strauss and Howe base this vision on a provocative theory of American history The authors look back five hundred years and uncover a distinct pattern Modern history moves in cycles each one lasting about the length of a long human life each composed of four twenty year eras or turnings that comprise history s seasonal rhythm

of growth maturation entropy and rebirth Illustrating this cycle through a brilliant analysis of the post World War II period The Fourth Turning offers bold predictions about how all of us can prepare individually and collectively for this rendezvous with destiny

**Twentieth-Century Europe** ,2014-02-03 Twentieth Century Europe A Brief History presents readers with a concise and accessible survey of the most significant themes and political events that shaped European history in the 20th and 21st centuries Features updates that include a new chapter that reviews major political and economic trends since 1989 and an extensively revised chapter that emphasizes the intellectual and cultural history of Europe since World War II Organized into brief chapters that are suitable for traditional courses or for classes in non traditional courses that allow for additional material selected by the professor Includes the addition of a variety of supplemental materials such as chronological timelines maps and illustrations
