After The End Of The World:

Christmas after the End of the World Cora Buhlert, 2019-12-16 It's Christmas five months after the Yellowstone supervolcano erupted, blacked out the sun, and covered most of the western US in ash. Thirteen-year-old Natalie, her younger brother Liam, baby Olivia, and family dog Bud are among the few still holding out in the evacuation zone. Day to day survival is hard enough, but Natalie is determined to give Liam and Olivia an unforgettable Christmas after the end of the world. And who knows, maybe they'll even get a true Christmas miracle. This is a post-apocalyptic holiday novelette of 10,000 words or approx 35 print pages.

After the End James Berger, 1999-01-01 In this study of the cultural pursuit of the end and what follows, Berger contends that every apocalyptic depiction leaves something behind, some mixture of paradise and wasteland. Combining literary, psychoanalytic, and historical methods, Berger mines these depictions for their weight and influence on current culture. He applies wide-ranging evidence from science fiction to Holocaust literature, from Thomas Pynchon to talk shows, from American politics to the fiction of Toni Morrison to reveal how representations of apocalyptic endings are indelibly marked by catastrophic histories.

After the Apocalypse Srećko Horvat, 2021-02-11 In this post-apocalyptic rollercoaster ride, philosopher Srećko Horvat invites us to explore the Apocalypse in terms of revelation rather than as the end itself. He argues that the only way to prevent the end, i.e. extinction, is to engage in a close reading of various interconnected threats, such as climate crisis, the nuclear age, and the ongoing pandemic. Drawing on the work of neglected philosopher Günther Anders, this book outlines a philosophical approach to deal with what Horvat, borrowing a term from climate science and giving it a theological twist, calls eschatological tipping points. These are no longer just the nuclear age or climate crisis, but their collision, conjoined with various other major threats, not only pandemics but also the viruses of capitalism and fascism. In his investigation of the future of places such as Chernobyl, the Mediterranean, and the Marshall Islands, as well as many others affected by COVID-19, Horvat contends that the revelation appears simple and unprecedented; the alternatives are no longer socialism or barbarism; our only alternatives today are a radical reinvention of the world or mass extinction. After the Apocalypse is an urgent call, not only to mourn tomorrow's dead today, but to struggle for our future while we can.

The Movie at the End of the World Thomas McGrath, 1972 For more than 30 years, Thomas McGrath has held a special place among American poets. His lyric and rhapsodic strengths are unequalled. His use of rhetoric and of the sonorities of poetic speech have been compared to Hart Crane and Dylan Thomas. McGrath's work has become more significant in recent years as a new generation of poets, with intense political concerns, have discovered his work. McGrath's sense of practical poesis, of poetry involved in the daily business of the world, has become an important source for young contemporary poets. A sense of place and of the durable influence of the land and human work is pervasive here. *The Movie at the End of the World* is a selection from all of McGrath's earlier books and all the shorter poems the poet wants saved.
