After The Famine Irish Agriculture 1850 1914:

After the Famine Michael Turner, 2002-04-11 *After the Famine* examines the recovery in Irish agriculture in the wake of the disastrous potato famine of the 1840s and presents an annual agricultural output series for Ireland from 1850 to 1914 Michael Turner's detailed 1996 study is in three parts he analyses the changing structure of agriculture in terms of land use and peasant occupancy he presents estimates of the annual value of Irish output between 1850 and 1914 and he assesses Irish agricultural performance in terms of several measures of productivity These analyses are placed in the context of British and European agricultural development and suggest that contrary to prevailing orthodoxies landlords rather than tenants were the main beneficiaries in the period leading up to the land reforms *After the Famine* is an important contribution to an extremely controversial area of Irish social and economic history

After the Famine Michael Edward Turner, 2002

A Companion to Nineteenth-Century Britain Chris Williams, 2008-04-15 *A Companion to Nineteenth Century Britain* presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading

The Cambridge History of Ireland: Volume 3, 1730-1880 James Kelly, 2018-02-28 The eighteenth and nineteenth centuries was an era of continuity as well as change Though properly portrayed as the era of Protestant Ascendancy it embraces two phases the eighteenth century when that ascendancy was at its peak and the nineteenth century when the Protestant elite sustained a determined rear guard defence in the face of the emergence of modern Catholic nationalism Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy society population emigration religion language state formation culture art and architecture and the Irish abroad It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty first century

The End of Liberal Ulster Frank Thompson, 2001 Land its ownership its occupancy and the fate of the dispossessed has long been one of the most controversial issues in Irish society Never was this truer than in the Land War period of the 1870s and 1880s In this

well documented volume Frank Thompson has provided a clear and refreshing analysis of the land question in Ulster In political terms it determined the path of Ulster politics at a critical juncture in Irish history to the extent that it was the central factor in first the rise then the fall of the Ulster Liberal Party This thorniest of issues provided the dynamic of the growth of the Liberal Party in Ulster so that whereas Liberalism was in terminal decline in the other three provinces there grew an almost irresistible tide of Liberal feeling in the North However the very success of the broader movement for land reform ultimately deprived the Liberal Party in Ulster of much of its political capital Furthermore the Parnellite campaign in the province from 1883 and Orange reaction to it increasingly divided Ulster along sectarian lines to the detriment of the Liberal cause By 1886 Home Rule had become the defining question it would remain until Partition The Land Question of course remained important but it had become clear that the time when it could radically influence the shape of Ulster was past Within a dramatically short period of coming to prominence though the Ulster Liberal was not quite an extinct political species Ulster Liberalism was well and truly a spent force
