Against the Valentinians Tertullian of Tertullian of Carthage, 2017-12-19 Adversus Valentinianos or Against the Valentinians is a famous refutation of Valentinianism by Tertullian an orthodox contemporary of the Gnostics and one of the first to investigate them The work satirized the bizarre elements that appear in Gnostic mythology ridiculing the Gnostics for creating elaborate cosmologies with multi storied heavens like apartment houses Though an enemy of Valentinus Tertullian nevertheless spoke of him as a brilliant and eloquent man Tertullian claims that Valentinus refused to submit himself to the superior authority of the bishop of Rome because he wanted to become bishop himself In Tertullian s version of events when another man was chosen to be bishop Valentinus was filled with envy and frustrated ambition and separated himself from the church to found a rival group of his own Tertullian s story follows a typical polemic against heresy maintaining that envy and ambition lead heretics to deviate from the true faith and for this and other reasons is largely rejected by historians Twenty years after the incident which Tertullian claims led to their separation from it followers of Valentinus still considered themselves full members of the church and they resisted orthodox attempts to expel them

Against the Valentinians Tertullian, 2018-08-17 In Which the Author Gives a Concise Account of Together with Sundry Caustic Animadversions on the Very Fantastic Theology of the Sect This Treatise is Professedly Taken from the Writings of Justin Miltiades Iren us and Proculus The Valentinians who are no doubt a very large body of heretics comprising as they do so many apostates from the truth who have a propensity for fables and no discipline to deter them therefrom care for nothing so much as to obscure what they preach if indeed they can be said to preach who obscure their doctrine The officiousness with which they guard their doctrine is an officiousness which betrays their guilt Their disgrace is proclaimed in the very earnestness with which they maintain their religious system Now in the case of those Eleusinian mysteries which are the very heresy of Athenian superstition it is their secrecy that is their disgrace

Ismo O. Dunderberg, 2008-04-16 Valentinus was a popular influential and controversial early Christian teacher His school flourished in the second and third centuries C E Yet because his followers ascribed the creation of the visible world not to a supreme God but to an inferior and ignorant Creator God they were from early on accused of heresy and rumors were spread of their immorality and sorcery Beyond Gnosticism suggests that scholars approach Valentinians as an early Christian group rather than as a representative of ancient Gnosticism a term notoriously difficult to define The study shows that Valentinian myths of origin are filled with references to lifestyle such as the control of emotions the Christian community and society providing students with ethical instruction and new insights into their position in the world While scholars have mapped the religious historical and philosophical backgrounds of Valentinian myth they have yet to address the significance of these mythmaking practices or emphasize the practical consequences of Valentinians theological views In this groundbreaking study Ismo Dunderberg provides a comprehensive portrait of a group hounded by other Christians after Christianity gained a privileged position in the Roman Empire Valentinians displayed a keen interest in mythmaking and the interpretation of myths spinning complex tales about the origin of humans and the world As this book argues however Valentinian Christians did not teach myth for myth s sake Rather myth and practice were closely intertwined After a brief introduction to the members of the school of Valentinus and the texts they left behind Dunderberg focuses on Valentinus s interpretation of the biblical creation myth in which the theologian affirmed humankind s original immortality as a present not lost quality and placed a special emphasis on the frank speech afforded to Adam by the supreme God Much like ancient philosophers Valentinus believed that the divine Spirit sustained the entire cosmic chain and saw evil as originating from conspicuous matter Dunderberg then turns to other instances of Valentinian mythmaking dominated by ethical concerns For example the analysis and therapy of emotions occupy a prominent place in different versions of the myth of Wisdom s fall proving that Valentinians like other educated early Christians saw Christ as the healer of emotions Dunderberg also discusses the Tripartite Tractate the most extensive account to date of Valentinian theology and shows how Valentinians used cosmic myth to symbolize the persecution of the church in the Roman Empire and to create a separate Christian identity in opposition to the Greeks and the Jews

Gnosticism and the Canon Law Lombard R. Connor, OSA, 2026-02-11 Gnosticism and the Canon Law Early Church and the Early Church Fathers How Three Centuries of Heretical Assault Nearly Destroyed Christianity And the Bishops Who Saved It In 177 AD Bishop Irenaeus of Lyons faced the greatest threat Christianity had ever known Sophisticated Gnostic teachers were corrupting the Gospel with secret wisdom claiming apostolic authority while promoting doctrines that poisoned the very foundations of the faith The battle for Christianity s soul had begun This meticulously researched account reveals how the Church Fathers forged the canonical weapons that defeated Gnosticism forever From Simon Magus s confrontation with Peter in 50 AD to the Theodosian Code of 438 AD witness the epic struggle that

established the episcopal authority biblical canon and doctrinal foundations that define Catholic Christianity today What You Will Learn How Valentinus nearly transformed Christianity into an elite philosophy in Alexandria 140 AD Why Marcion's purified Gospel threatened to sever Christianity from its Jewish roots 144 AD How Tertullian's legal mind created the prescription argument that silenced heretical claims 195 AD How Saint Augustine's personal experience with Manichaeism 373-382 AD equipped him to deliver the final blow against dualistic error Why the Muratorian Fragment c. 180 AD became the Church's first defense against Gnostic scriptures Written by a Catholic historian this authoritative work combines rigorous scholarship with compelling narrative Every claim is documented every argument grounded in primary sources from the period 50-450 AD The Gnostic serpent that whispered you shall be as gods in Eden returned in the lecture halls of Alexandria and the assemblies of Rome But the apostolic Church possessed weapons the heretics could not overcome episcopal unity canonical Scripture and the power of orthodox truth For Catholics who want to understand why their faith stands unshaken after 2,000 years of intellectual assault The answers lie in the pages of this book the same principles that saved Christianity in the ancient world remain your inheritance today The battle for the soul of Christianity was won once These are the bishops who won it Order now and claim your place in this ancient victory

The Gnostic Heresies of the First and Second Centuries Henry Longueville Mansel, 1875 *The New Schaff-Herzog Encyclopedia of Religious Knowledge* Johann Jakob Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1910 **A Dictionary of Christian Biography, Literature, Sects and Doctrines, Being a Continuation of "the Dictionary of the Bible"** William Smith, Henry Wace, 1887 *A Dictionary of Christian Biography, Literature, Sects and Doctrines: Hermogenes-Myensis* William Smith, Henry Wace, 1882 **A Dictionary of Christian Biography, Literature, Sects and Doctrines** William Smith, Henry Wace, 1882 *Anglo-American Encyclopedia*, 1910 Treasure Hidden in a Field David W. Jorgensen, 2016-09-26 This reception history of the Gospel of Matthew utilizes theoretical frameworks and literary sources from two typically distinct disciplines patristic studies and Valentinian aka Gnostic studies The author shows how in the second and third centuries the Valentinians were important contributors to a shared culture of early Christian exegesis By examining the use of the same Matthean pericopes by both Valentinian and patristic exegetes the author demonstrates that certain Valentinian exegetical innovations were influential upon and ultimately adopted by patristic authors Chief among Valentinian contributions include the allegorical interpretation of texts that would become part of the New Testament a sophisticated theory of the historical and theological relationship between Christians and Jews and indeed the very conceptualization of the Gospel of Matthew as sacred scripture This study demonstrates that what would eventually emerge from this period as the ecclesiological and theological center cannot be adequately understood without attending to some groups and individuals that have often been depicted both by subsequent ecclesiastical leaders and modern scholars as marginal and heretical

The Gnostic Heresies of the first and second centuries, by the late H.L. Mansel, with a sketch of

his work, life, and character, by the earl of Carnarvon. Ed. by J.B. Lightfoot Henry Longueville Mansel, 1875 The New Schaff-Herzog Encyclopedia of Religious Knowledge: Liutprand-Moralities Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1910 **The New Werner Twentieth Century Edition of the Encyclopaedia Britannica** , 1906 Rethinking Christian Martyrdom Matthew Recla, 2022-10-20 This book argues that we have been mistaken about the fundamental assumption that Christianity is the key to understanding the Christian martyr Examining martyrdom in early Christian history Matt Recla argues that the violent deaths of martyrs real and imagined were appropriated for Christian institutional life Through deconstructing martyrdom and appreciating the complexity of the martyr we recognize martyrdom not as a socio historical phenomenon inherent to particular ideologies and not as a religious identity but as the institutional co optation of violence The Christian apologist Tertullian argued that the blood of the martyrs was the seed of the Church but while the seed may be the key to martyrdom the blood is the key to the martyr The book shows how martyrs exceed the bounds of institutional narrative Centering analysis of martyrdom first around the martyr s existential difference and the complex biological psychological and socio cultural factors that lead to willing death this book sheds new light on the motivations of martyrs our fascination with them and the parasitic relationship of religion to violent death In challenging long held beliefs about the praiseworthiness of martyrdom this book is of interest to scholars of religion as well as those concerned about the relationship between religion and violence **Christian Controversy in Alexandria** Everett Procter, 1995 Christian Controversy in Alexandria is an in depth study of Clement of Alexandria s polemic against Basilides Valentinus and their followers The book contains a fresh translation and interpretation of Clement s citations from the Basilideans and Valentinians and his criticism of their teachings on topics ranging from the creation of the world to the life of the Savior and the church The author also shows how Clement borrows the ideas of his opponents in order to redefine them in the interests of Catholic orthodoxy A Dictionary of Christian Biography, Literature, Sects and Doctrines: N-Z William Smith, Henry Wace, 1887 A Dictionary of Christian Biography, Literature, Sects and Doctrines: Naamanes-Zunftredus William Smith, Henry Wace, 1887
