Against Civilization Readings And Reflections:

Against Civilization John Zerzan, 2005 *Against Civilization* first published in 1999 by Uncivilized Books and out of print for several years is the well regarded primer to Green Anarchism Anarcho Primitivism and the most radical but relevant form of anarchism to develop in the past decade Anarcho primitivism is a shorthand term for a radical current that critiques the totality of civilisation from an anarchist perspective and seeks to initiate a comprehensive transformation of human life Revised and expanded edition

The Self-destruction of the West Damien François, 2007 *Voilà d'ormais plus de 10 000 ans que la civilisation occidentale s'est installée et voilà 10 000 ans qu'elle viole le sens même de la nature la vie En s'appropriant sans concession ce qui l'entourait l'homme de l'Ouest a vu son horizon ployer sous la charge de la destruction qu'il lui avait lui-même réalisée* Sommes nous des lycanthropes ou des vampires Ces monstres si terrifiants qui sortent de notre imagination sont ils en réalité la copie de notre comportement d'astrotecteur Prédicateurs nous pompons sans remords les énergies qui nous entourent Jusqu'où ira-t-on

Anarcho-primitivism , Against Ecological Sovereignty Mick Smith, 2011-09-29 *Links the political critique of sovereign power with ecological concerns*

Stop the Machines Mauro Lubrano, 2025-07-11 *As we stand on the cusp of an AI revolution will we see the rise of a new anti technology extremism that threatens to dismantle the gains of modern civilization In the first exploration of this phenomenon Mauro Lubrano traces the origins and evolution of anti technology violence across the globe He identifies three main groups fuelling such resistance insurrectionary anarchists eco extremists and eco fascists Exploring the justifications that underlie the opposition to technology and the strategies employed to stop the machines he shows how anti tech extremism has emerged as a reaction to the Anthropocene an attempt to undo the epoch of human domination The intellectual flexibility of this ideology lends itself to different causes from the class struggle against the techno elites to the defence of nature and white supremacy With fears about the risks of artificial intelligence mounting and the world beset by serious polycrises what is currently a fragmented fringe phenomenon holds the potential for dramatic escalation*

Media, Culture and Human Violence Jeff Lewis, 2015-11-18 *Humans of the advanced world are the most violent beings of all times This violence is evident in the conditions of perpetual warfare and the accumulation of the most powerful and destructive arsenal ever known to humankind It is also evident in the devastating impact of advanced world economy and cultural practices which have led to ecological devastation and the current era of mass species extinction one of only six mass extinction events in planetary history and the only one caused by the actions of a single species humans This violence is manifest in our interpersonal relationships and the ways in which we organize ourselves through hierarchical systems that ensure the wealth and privilege of some against the penury and misery of others In this new and highly original book Jeff Lewis argues that violence is deeply inscribed in human culture thinking and expressive systems media Lewis contends that violence is not an inescapable feature of an aggressive human nature Rather violence is laced through our desires and dispositions to communalism and expressive interaction From the near extinction of*

all Homo sapiens around 74 000 years ago the invention of culture and media enabled humans to imagine and articulate particular choices and pleasures Organized intergroup violence or warfare emerged through the exercise of these choices and their expression through larger and increasingly complex human societies This agitation of amplified desire hierarchical social organization and mediated knowledge systems has created a cultural volition of violent complexity which continues into the present Media Culture and Human Violence examines the current conditions of conflict and harm as an expression of our violent complexity

Total Liberation David Naguib Pellow,2014-09-01 When in 2001 Earth Liberation Front activists drove metal spikes into hundreds of trees in Gifford Pinchot National Forest they were protesting the sale of a section of the old growth forest to a timber company But ELF s communiqu on the action went beyond the radical group s customary brief Drawing connections between the harms facing the myriad animals who make their home in the trees and the struggles for social justice among ordinary human beings resisting exclusion and marginalization the dispatch declared all oppression is linked just as we are all linked and decried the patriarchal nightmare in the form of techno industrial global capitalism In Total Liberation David Naguib Pellow takes up this claim and makes sense of the often tense and violent relationships among humans ecosystems and nonhuman animal species expanding our understanding of inequality and activists uncompromising efforts to oppose it Grounded in interviews with more than one hundred activists on the spot fieldwork and analyses of thousands of pages of documents websites journals and zines Total Liberation reveals the ways in which radical environmental and animal rights movements challenge inequity through a vision they call total liberation In its encounters with such infamous activists as scott crow Tre Arrow Lauren Regan Rod Coronado and Gina Lynn the book offers a close up insider s view of one of the most important and feared social movements of our day At the same time it shows how and why the U S justice system plays to that fear applying to these movements measures generally reserved for jihadists with disturbing implications for civil liberties and constitutional freedom How do the adherents of total liberation fight oppression and seek justice for humans nonhumans and ecosystems alike And how is this pursuit shaped by the politics of anarchism and anticapitalism In his answers Pellow provides crucial in depth insight into the origins and social significance of the earth and animal liberation movements and their increasingly common and compelling critique of inequality as a threat to life and a dream of a future characterized by social and ecological justice for all

The Utne Reader ,1999-03 **What's Wrong with Us?** Colin Feltham,2007-08-13 What is the scope of the human condition What are the origins of universal human problems What is wrong with education marriage religion and therapy

How likely are we as humans to correct these problems Colin Feltham Professor of Critical Counselling Studies at Sheffield Hallam University UK and member of Crisis Forum for the Study of Crisis in the 21st Century argues that the current crises of the human condition are merely symptoms of a chronic wayward tendency otherwise branded in What's Wrong With Us as anthropathology The origins of human suffering are traced with interdisciplinary adeptness exploring the contemporary issues of human violence deceit patriarchy rapaciousness child abuse irrationality and capitalist greed Our human anthropathology is assessed as being at the heart of such problems This book breaks new ground in bringing many anthropathological themes together in a sustained frontal attack on dangerous human anachronisms We cannot be sure that we can solve our problems but we can be sure that denying them will protract and worsen the situation for both ourselves and our descendants A challenging and enlightening book for students and academics in counselling and psychotherapy psychology sociology philosophy and religion Also a gripping read for those with a general interest in our current social state
