Against The Faith:

Against the Faith Jim Herrick, 1985-05 The subject of this book is those who have placed themselves against the faith in other words those who have opposed the prevailing religious faith of their time Such opponents adopt this position for a wide variety of reasons and in many different ways They are sometimes fiery activists hammering against leaders and leading ideas and at other times are quiet contemplative skeptics questioning all knowledge and all orthodoxy They can be immersed in the politics of their time like Bradlaugh or Thomas Paine They can be poets like Heine and Shelley historians like Gibbon playwrights like Buchner or novelists like George Eliot and Mark Twain They may be scientists like Huxley or philosophers like J S Mill They may be most at home on the public platform like Ingersoll or in the study like Pierre Bayle They can be relaxed men of the world like Hume or temperamental outsiders like d Holbach They may lead quiet and little known lives like the freethinker Collins or the clergyman Meslier or they may be outstanding polymaths of their age like Voltaire or Bertrand Russell This book covers deists skeptics and atheists Without attempting to be comprehensive I have tried to show that there is a spectrum between the three There has often been close contact between deists who gently criticize the Christian faith skeptics who questions all knowledge and atheists who detach themselves from any belief in God Occasionally individuals have held all these positions at different periods of their lives Furthermore the distinction sometimes made between the respectable philosophic skeptic and the disreputable agitating atheist is not clear cut philosophers sometimes agitate and frequently rub shoulders with activists and reformers and campaigners often think quite deeply Since this book in the main covers Europe in the eighteenth and nineteenth centuries the faith opposed is Christianity A history of opponents to Hinduism Islam and Buddhism would provide fascinating parallels but that book has yet to be written It is a mistake and one to which opponents are particularly prone to imagine the faith as a monolithic entity rather than an accumulation of various traditions There can therefore be opposition to the faith from within as well as without and heresy and heterodoxy have sometimes been not far apart

Atheism And The Case Against Christ Matthew S. McCormick, 2012-09-25 Hundreds of millions of people believe that Jesus came back from the dead This cogent forcefully argued book presents a decidedly unpopular view namely that the central tenet of Christianity the resurrection of Jesus is false The author asks a number of probing questions Is the evidence about Jesus as it has been relayed to us over the centuries of sufficient quantity and quality to justify belief in the resurrection How can we accept the resurrection but reject magic at the Salem witch trials What light does contemporary research about human rationality from the fields of behavioral economics empirical psychology cognitive science and philosophy shed on the resurrection and religious belief Can we use contemporary research about the reliability of people s beliefs in the supernatural miracles and the paranormal to shed light on the origins of Christianity and other religions Does it make sense that the all powerful creator of the universe would employ miracles to achieve his ends Can a Christian believe by faith alone and yet reasonably deny the supernatural claims of other religions Do the arguments against

Christianity support atheism By carefully answering each of these questions this book undermines Christianity and theism at their foundations it gives us a powerful model for better critical reasoning and it builds a compelling case for atheism Without stooping to condescension or arrogance the author offers persuasive arguments that are accessible thoughtful and new

Reason Over Faith J. D. Brucker, 2015 Many contend religion is in its entirety tolerant and stands as a force for good Millions of human beings worship a god and follow the doctrine of their chosen faith never considering how harmful their beliefs may be In Reason over Faith Antitheism and the Case against Religion J D Brucker takes a stand against all that is considered holy giving the reader an introduction to how the top three monotheistic religions and faith have failed the human race in a miserable way

The Christian Delusion John W. Loftus, 2010-04-20 In this anthology of recent criticisms aimed at the reasonableness of Christian belief a former evangelical minister and apologist author of the critically acclaimed Why I Became an Atheist has assembled fifteen outstanding articles by leading skeptics expanding on themes introduced in his first book Central is a defense of his outsider test of faith arguing that believers should test their faith with the same skeptical standards they use to evaluate the other faiths they reject as if they were outsiders Experts in medicine psychology and anthropology join Loftus to show why when this test is applied to Christianity it becomes very difficult to rationally defend Collectively these articles reveal that popular Christian beliefs tend to rely on ignorance of the facts Drawing together experts in diverse fields including Hector Avalos Richard Carrier David Eller and Robert Price this book deals a powerful blow against Christian faith

Against Christianity Peter J. Leithart,2003 How could a conservative Christian an ordained minister with a beard no less be against not only Christianity but theology sacraments and ethics as well Yet that is the stance Peter Leithart takes in this provocative theological bricolage Seeking to rethink evangelical notions of culture church and state Leithart offers a series of short essays aphorisms and parables that challenge the current dichotomies that govern both Christian and non Christian thinking about church and state the secular and the religious But his argument isn't limited to being merely against Leithart reveals a much larger vision of Christian society defined by the stories symbols rituals and rules of a renewed community the city of God

A Religion against Itself Robert W. Jenson,2009-11-01 Western religion today is as phony as an aluminum Christmas tree or a celluloid carnation Our culture in its customs laws and creative arts no longer reckons seriously with supernatural realities although it pretends to According to Robert W Jenson the present epoch of phony religion gives the church the task and opportunity of making explicit the antireligious nature of the gospel Indeed Christian faith is antireligious religion Dr Jenson takes up the theme of religionless Christianity and works it out in relation to theology worship ethics parish structure missionary motivation and faith The final chapter consists of sermonic attempts to do what *A Religion against Itself* says must be done Three excursions show how the author's thought differs from that of Thomas J J Altizer William Hamilton and Harvey Cox For Christians repelled by their own religion here is a book that comes to grips with the logic and music of our condition in the hope of helping the church make sense of the gospel to itself and perhaps also to others

to the human race Documenting the ravages from religious intolerance over the centuries Onfray makes a strong case against the three religions for their obsession with purity and their contempt for reason and intelligence individual freedom desire and the human body sexuality and pleasure and for women in general In their place all three demand faith and belief obedience and submission extol the next life to the detriment of the here and now Tightly argued this is a work that is sure to stir debate on the role of religion in Australian society and politics **Christian Faith and Life** ,1926 **Second Decennial Edition of the American Digest** ,1922 **Continent** ,1914 **Ecclesiastical Review ...** Herman Joseph Heuser,1912 *The Defender* ,1916
