about medieval history provides them with the sources and analytical tools to critique those fictions and identifies what really
happened in the Middle Ages This book is the first to present fictions about the medieval world to serious students of history
Instead of merely listing myths and stating they are wrong this volume promotes critical historical analysis of those myths
and how they came to be Each of the ten chapters outlines a pervasive modern myth about medieval European history
describing What People Think Happened and What Really Happened and illustrating both trends with primary source
documents The book demonstrates that historical fictions also have a history and that while we need to replace those fictions
with facts about the medieval past we can also benefit from understanding how a fiction about the Middle Ages developed
and what that says about our modern perspectives on the past Through this innovative presentation readers are introduced
to a wide range of sources from Roman imperial perspectives on the Fall of Rome to songs of chivalry and chronicles of the
Crusades scientific treatises on the shape of the Earth and the creation of the universe and early modern stories and
textbooks that developed or perpetuated historical myths *The Collected Poetry of Robinson Jeffers Vol 5* Robinson
