**The Age of Cultural Revolutions** Colin Jones, Dror Wahrman, 2002-01-08 This superb collection of essays brings together the most exciting new work in cultural and literary history. Although the authors focus on the various cultural revolutions of the late 18th and early 19th centuries, the significance of their investigations extends far beyond that moment. They show how the major categories of modern social life took root in this era, but they emphasize the surprising and often paradoxical ways those developments took place. Nothing about the experience of class, gender, race, nation, sentiment, or even death was pre-ordained. These essays will enable readers to take a fresh new look at the origins of modernity. Lynn Hunt, editor of *The New Cultural History* and co-editor of *Beyond the Cultural Turn*. This is a valuable and provocative set of essays. Differing markedly in subject matter, they are linked by their intelligence and concern to re-assess early modern English and French histories and the differences conventionally drawn between them in the light of current work on language, class, race, and gender. Linda Colley, author of *Britons: Forging the Nation 1707-1837*. *Cultural Revolutions* Leora Auslander, 2009 Auslander's emphasis on the power of things as a motor of historical change permits her to present a refreshingly new set of arguments about well-known historical events. Denise Z. Davidson, author of *France After Revolution: Urban Life, Gender, and the New Social Order*. This lucidly written book brilliantly merges material culture firmly into political history and enriches both. Leora Auslander's original interpretation of changing gender relations in the age of the democratic revolutions offers fresh ways to understand the emotional and political work that has shaped national identity and persists into our own time. A remarkable accomplishment. Linda K. Kerber, author of *No Constitutional Right to Be Ladies: Women and the Obligations of Citizenship*. *Sweden in the Eighteenth-Century World* Göran Rydén, 2016-03-09 Eighteenth-century Sweden was deeply involved in the process of globalisation: ships leaving Sweden's central ports exported bar iron that would drive the Industrial Revolution, whilst arriving ships would bring not only exotic goods and commodities to Swedish consumers but also new ideas and cultural practices with them. At the same time, Sweden was an agricultural country to a large extent governed by self-subsistence, and for most wealth was created within this structure. This volume brings together a group of scholars from a range of disciplinary backgrounds who seek to present a more nuanced and elaborated picture of the Swedish cosmopolitan eighteenth century. Together they paint a picture of Sweden that is more like the one eighteenth-century intellectuals imagined and help to situate Sweden in histories of cosmopolitanism of the wider world. *Cultural Revolutions* Leora Auslander, 2009 The revolutions in the United States, France, England ushered in the modern political age. *Cultural Revolutions* analyzes the place of material culture, ritual, everyday life during these revolutions, providing a fresh, engaging discourse on the way in which the minds of the masses were transformed from monarchism to republicanism. *Exploring Cultural History* Joan Pau Rubiés, Melissa Calaresu, Filippo de Vivo, 2010 Melissa Calaresu is the McKendrick Lecturer in History at Gonville and Caius College, University of Cambridge, UK. Filippo de Vivo is Senior Lecturer in Early Modern History

at Birkbeck College University of London UK Joan Pau Rubies is Reader in International History at the London School of Economics and Political Science UK Religion and the Demographic Revolution Callum G.
