**Age of Iron** Gale H. Carrithers, James Daniel Hardy, 1998 In *Age of Iron* Gale Carrithers and James Hardy scrutinize the habits of thought during the so called long century of the English Renaissance or Age of Iron as many then termed it Through illuminating argument the authors reassert the essentially religious dynamism of English Renaissance culture significantly strengthening a nascent countercurrent to recent scholarship s emphasis on secular power as the ascendant preoccupation of the era Whereas latter day literary and historical scholars have stressed secondary issues of political and economic power class gender and race Carrithers and Hardy underscore love in its agapaic philadelphic and erotic modalities and through the media of the tropes love as a complement and alternative to secular power BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

**Age of Iron and Renaissance Italy**, 1998 **Liturgy and Literature in the Making of Protestant England** Timothy Rosendale, 2007-09-20 The Book of Common Prayer is one of the most important and influential books in English history but it has received relatively little attention from literary scholars This study seeks to remedy this by attending to the prayerbook s importance in England s political intellectual religious and literary history The first half of the book presents extensive analyses of the Book of Common Prayer s involvement in early modern discourses of nationalism and individualism and argues that the liturgy sought to engage and textually reconcile these potentially competing cultural impulses In its second half Liturgy and Literature traces these tensions in subsequent works by four major authors Sidney Shakespeare Milton and Hobbes and contends that they operate within the dialectical parameters laid out in the prayerbook decades earlier Rosendale s analyses are supplemented by a brief history of the Book of Common Prayer and by an appendix which discusses its contents

**John Donne and Conformity in Crisis in the Late Jacobean Pulpit** Jeanne Shami, 2003 The sermons of John Donne are seen to embody the tensions and pressure on public religious discourse 1621-25 This book considers the professional contribution of John Donne to an emerging homiletic public sphere in the last years of the Jacobean English Church 1621-25 arguing that his sermons embody the conflicts tensions and pressures on public religious discourse in this period while they are in no way typical of any particular preaching agenda or style they articulate these crises in their most complex forms and expose fault lines in the late Jacobean Church The study is framed by Donne s two most pointed contributions to the public sphere his sermon defending James I s Directions to Preachers and his first sermon preached before Charles I in 1625 These two sermons emerge from the crises of controversy censorship and identity that converged in the late Jacobean period and mark Donne s clearest professional interventions in the public debate about the nature and direction of the Church of England In them Donne interrogates the boundaries of the public sphere and of his conformity to the institutions authorities and traditions governing public debate in that sphere modelling for his audience an actively engaged conformist identity Professor JEANNE SHAMI teaches in the Department of English at the University of Regina
