## Caravan To China:

**Caravan for China** Frank S. Stuart,1941      **Caravan for China** Frank Stanley Stuart,1939      **Caravan Across China** James Marvin Weller,1984      **History of Economic Relations between Russia and China** M.I. Sladkovskii,2017-07-05

This book was originally written as a historical treatise to demonstrate that the development of economic ties between Russia and China is the logical outcome of a centuries old friendship between these neighboring peoples a friendship which accords with their fundamental interests and is of general benefit to all mankind In the post Soviet and post Maoist era these consensual tendencies are even stronger The original publication of this translation in 1966 when its central thesis had long been abandoned and refuted by both sides is still of value and not just as an ironic comment on the theorists and systemizers of history For this better examples are already available in every book shop and on the shelves of every library Rather the work demonstrates that sharing a common socialist ideology is insufficient to overcome animosities of history and national rivalries The student of Sino Soviet relations will find much of interest here The book still represents a work of considerable scholarship even though its ostensible *raison d'être* has been abolished Armed with the knowledge that the protagonists have accepted some of the author's reservations and have reversed their positions on a number of points objectionable to him the reader will be able to achieve a clear and comprehensive understanding of the subject Partisanship was never particularly subtle in debates within Marxist or Maoist circles The virulence of the language in some sections of the book which have been rendered accurately with no toning down provides the reader with an insight into the background of China's continuing intransigence in international policies

As China strengthens its links with its neighbours through its Belt and Road initiative there is growing interest in the indigenous peoples of China's western and southwestern borderlands. This book, based on extensive original research, considers the indigenous peoples of Yunnan province, which is a major gateway between China and the countries of south and south-east Asia. Unlike many books on China's indigenous peoples which are written by foreigners who have lived for a while in China, this book is comprised of the work of Chinese scholars, many of them members of ethnic minorities themselves, and considers the issues from a Chinese perspective.
