Cards Of Identity

Briton Hadden, Henry R. Luce

Cards Of Identity:

Cards of Identity Nigel Forbes Dennis, 2002 A Scathing Satire On Psychology Identity Theory And Class Prejudice Cards of Identity is a scathing satire of psychology identity theory and class prejudice The plot centers on an annual meeting of the Identity Club a group of psychologists who come together to present case histories promoting their chosen theory of identity These case studies three of which are presented in the novel are not scientific treatises but fictional representations of characters in line with the author s biases In fact members of the Club aren t allowed to interact with actual patients when creating their stories Surrounding this meeting is the equally bizarre story of the local townspeople who are brainwashed and transformed into servants for the convention and who end the book with a show stopping Shakespearian play Cards of Identity Nigel Dennis, 1974

Home Office, 2003 Following the consultation exercise on entitlement identity cards launched in July 2002 the government has decided to begin the process of introducing a national identity cards scheme This is part of a strategy to address growing threats to security and prosperity from illegal immigration and working organised crime and terrorism identity theft and fraudulent access to public services This report outlines the proposed implementation strategy for this process divided into two stages The first stage will involve the publication of draft legislation for the introduction of the scheme and will include establishing a National Identify Register more secure passports and driving licences based on biometric technology making a voluntary plain identify card available for those who do not need a passport or driving licence and choose to take the option and introducing mandatory biometric ID documents for foreign nationals staying in this country in accordance with European law The second stage would involved a move to a compulsory card scheme following Parliamentary approval technological availability and clarification that it was fully affordable within future agreed spending
