Korea - grand tour** Carl De Keyser,2018-03-01 When it comes to foreign visitors or artists North Korea must be the most restrictive country in the world Nevertheless Carl De Keyser managed to cross the entire country in 42 days divided into three journeys In his latest book Magnum photographer Carl De Keyser points his lens at North Korea officially the Democratic People's Republic of Korea the last communist state in the world from an ideological political and cultural perspective De Keyser is one of very few photographers who get almost unlimited access to the country He photographed more than 200 different locations many of which had never been captured on camera before The 250 photos that form his Grand Tour taken on marches at the shooting range in the subway and in family homes are a testament to this country's uniqueness *God Inc I and II* Carl De Keyser,Johan Braeckman,2021-01-31 Brings together two outstanding series of photographs taken 30 years apart that capture the American religious experience Expands the earlier now out of print book *God Inc I* with photographs that were not previously published *God Inc I II* are bound together in a reversible volume with two covers In the summer of 1990 Magnum photographer Carl De Keyser bought a camper van and spent a year traveling across the United States to capture the American religious experience Published in 1992 the series which was exhibited at the California Museum of Photography in San Diego was called *God Inc* Thirty years later he has revisited the American Bible Belt and various other states to see how religious groups embrace modern life and the latest technologies in their search for new followers The result *God Inc I II* is a fascinating documentary of American life that bundles both series of photographs in a reversible format with two covers The first part is supplemented with photographs that were not published before During the whole year I asked myself why Americans undergo their religious experiences so intensively and emotionally Carl De Keyser during the process of creating *God Inc I* Published to accompany an exhibition in Ghent Belgium in November 2020 **Water** ,2008 Prix Pictet is the world's first prize dedicated to photography and sustainability **History of Photography** Laurent Roosens,Luc Salu,1989-01-01 The fourth volume in a history of photography this is a bibliography of books on the subject

The First World War Carl de Keyser,David Van Reybrouck,Geoff Dyer,2015 One hundred years later the First World War has returned to public consciousness often through republished photographs of its horrors the muddy trenches the devastated battlefields the maimed survivors Because the most popular cameras of the time were the Vest Pocket Kodak and other crude film cameras the look of that Great War is grainy blurred and monochrome This book presents a startlingly different First World War one seen through rare glass plate photographs made by the war's most gifted cameramen selected and digitally restored by Magnum photographer Carl De Keyser Scanned from the original plates with scratches and other flaws painstakingly removed these oversized reproductions reveal the war in uncanny and previously unseen clarity Also startling are the unfamiliar scenes selected by De Keyser and elucidated by historian David Van Reybrouck staged scenes of

men in training and of children imitating them dramatic industrial photographs landscapes of astonishing destruction pictures of African colonial troops on the Western front and postmortem portraits of thirteen Belgian soldiers killed in battle on the second day of the war A quarter of the photographs in this book are in color made with the autochrome process The book includes a preface by Geoff Dyer who refers to the extraordinary power and surprise of this hoard of photographs and discusses the disconcerting temporal effects of seeing such unusual pictures of a historical event we strongly associate with entirely different imagery
