

Shock therapy

What is shock therapy?

Electroconvulsive therapy (ECT), formerly known as electroshock, is a psychiatric treatment in which seizures are electrically induced in anesthetized patients for therapeutic effect.

Insulin shock therapy or insulin coma therapy (ICT) was a form of psychiatric treatment in which patients were repeatedly injected with large doses of insulin in order to produce daily comas over several weeks.

Carl Solomon's 'Report from the Asylum' (1950)

Carl Solomon (1928 – 1993) was an American writer. In his youth, he was voluntarily institutionalized at Greystone Park Psychiatric Hospital in New York State. At the Hospital, he underwent shock-therapy.

Upon being strapped into my insulin bed, I would at once break off my usual stream of puns and hysterical chatter. I would stare at the bulge I made beneath the canvas restraining sheet, and my body, insulin-packed, would become to me an enormous concrete pun with infinite levels of association, and thereby a means of surmounting association with things, much as the verbal puns had surmounted the meaning of words....

Each coma is utterly incomparable to that of the previous day. Lacking a time-sense and inhabiting all of these universes at one and the same time, my condition was one of omnipresence of being everywhere at no time....

Invariably, I emerged from the comas bawling like an infant and flapping my arms crazily (after they had been unfastened), screaming 'Help!'

Task:

1. Underline key words or phrases in Solomon's writing above.
2. What adjectives can you think of to describe his experience?
3. Using your work from tasks 1 and 2, write a poem in pairs about Carl Solomon's experience. You can choose to write it in the first person or the third person. Think about sound effects and incorporating different voices (e.g. the nurses).

Terry C. Jones

Carl Solomon Report From The Sane Asylum:

Carl Solomon James T. Jones, 2003 *Marginal People in Deviant Places* Janice M. Irvine, 2022-07-25 *Marginal People in Deviant Places* revisits twentieth century ethnographic studies of deviance arguing that ethnographies that focus on marginal subcultures ranging from Los Angeles hoboes to men who have sex with other men in St Louis bathrooms to taxi dancers in Chicago to elderly Jews in Venice California produce new ways of thinking about social difference more broadly in the United States Irvine demonstrates how the social scientists who told the stories of these marginalized groups offered an early challenge to then dominant narratives of scientific racism and then offers a social history of certain American outsiders and a prehistory of the academic fields of ethnic studies and sexuality studies Through the stories Irvine recounts in this book she identifies an American paradox represented in a simultaneous desire for and rejection of outsiders and describes the rise of an outsider capitalism that integrates difference into American society by marketing it Place plays a crucial role in this work as Irvine examines its role in shaping ethnographies about outsiders and therefore understandings of social difference Irvine has visited the sites of each of the ethnographies about which she writes collecting photos videos and archival materials that will help readers understand the importance of place in the generation of particular ethnographic stories The open access online edition of this book is richly illustrated to help convey the deep sense of emplacement of the ethnographies discussed in this book and includes a series of interviews with sociologists about how they conduct their work and understand their forebears *The Violence of Silence* S. Giora Shoham, 1983 **Southwest Review**, 1960 *Best Minds* Stevan M. Weine, 2023-03-28 WINNER 2024 BEAT STUDIES ASSOCIATION AWARDS A revelatory look at how poet Allen Ginsberg transformed experiences of mental illness and madness into some of the most powerful and widely read poems of the twentieth century Allen Ginsberg's 1956 poem *Howl* opens with one of the most resonant phrases in modern poetry I saw the best minds of my generation destroyed by madness Thirty years later Ginsberg entrusted a Columbia University medical student with materials not shared with anyone else including psychiatric records that documented how he and his mother Naomi Ginsberg struggled with mental illness In *Best Minds* psychiatrist researcher and scholar Stevan M Weine M D who was that medical student examines how Allen Ginsberg took his visions and psychiatric hospitalization his mother's devastating illness confinement and lobotomy and the social upheavals of the postwar world and imaginatively transformed them Though madness is often linked with hardship and suffering Ginsberg's showed how it could also lead to profound and redemptive aesthetic spiritual and social changes Through his revolutionary poetry and social advocacy Ginsberg dedicated himself to leading others toward new ways of being human and easing pain Throughout his celebrated career Ginsberg made us feel as though we knew everything there was to know about him However much has been left out about his experiences growing up with a mentally ill mother his visions and his psychiatric hospitalization In *Best Minds* with a forty year career studying and addressing trauma Weine provides a groundbreaking exploration of the poet and his creative

process especially in relation to madness Best Minds examines the complex relationships between mental illness psychiatry trauma poetry and prophecy using the access Ginsberg generously shared to offer new lively and indispensable insights into an American icon Weine also provides new understandings of the paternalism treatment failures ethical lapses and limitations of American psychiatry in the 1940s and 1950s In light of these new discoveries the challenges Ginsberg faced appear starker and his achievements both as a poet and an advocate even more remarkable Garrets and Pretenders Albert Parry,2013-06-17 Fascinating study recaptures the vibrantly eccentric lifestyles of American hipsters and outsider artists Accurate well illustrated narrative profiles the lives and manners of nonconformists from the early 19th century through the Beat Generation **The Ohio Review** ,1977 **The Literature of Commitment** Charles Irving Glicksberg,1976 Offers a cogent and convincing explanation in light of the historical situation at the time as to why the utopian ardor the euphoria of commitment to the cause of Marxism gave way to the spiritually lacerating experience of disillusionment *American Literature in Transition, 1950-1960* Steven Belletto,2017-12-28 American Literature in Transition 1950 1960 explores the under recognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts institutions cultures and social phenomena important to the decade The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s The second section demonstrates the range of subject positions important in the 1950s but still not visible in many accounts of the era The third section explores key literary schools or movements associated with the decade and explains how and why they developed at this particular cultural moment The final section focuses on specific forms or genres that grew to special prominence during the 1950s Taken together the chapters in the four sections not only encourage us to rethink familiar texts and figures in new lights but they also propose new archives for future study of the decade **American Literary Magazines** Edward E. Chielens,1992-08-24 The history of modern American literature is inextricably tied to the history of the literary magazine Conversely in the individual histories of these magazines can be gleaned highlights of literary activity and insights on the writers and editors in the forefront The literary magazines of the twentieth century most of them known as little because of small budgets and circulation and short lives number in the thousands Some like the venerable New Yorker have enjoyed wide circulation for well over half a century others like The Fugitive published in Nashville Tennessee in the early 1920s were regional and or experimental and short lived Of these thousands editor Edward E Chielens has selected seventy six of the most significant for description and analysis in individual historical essays An additional one hundred magazines are briefly profiled in an appendix Forty three scholars and writers contributed to this volume Following the pattern established in Chielens s earlier complementary volume American Literary Magazines The Eighteenth and Nineteenth Centuries the magazine essays also provide appended data on information sources and publishing history The volume introduction

discusses the characteristics of different types of literary magazines in the twentieth century and their sponsoring organizations or individuals as well as the influence on their development of leading literary figures such as Ezra Pound and H L Mencken This discussion is bolstered by a chronological appendix to the volume presenting highlights in the history of literary magazines in the perspective of events in literary history An additional appendix provides a directory of major collections of literary magazines in the United States and Canada with descriptions of their holdings
