With Photographs and Reproductions from Old Prints, Etc* George TOPPING (and POTTER (John J.)),John J. POTTER,1922 *The Photographic Times* ,1890 **Subject Catalog** Library of Congress,1980-04 **Pioneer Photographers from the Mississippi to the Continental Divide** Peter E. Palmquist,Thomas R. Kailbourn,2005 This biographical dictionary of some 3 000 photographers and workers in related trades active in a vast area of North America before 1866 is based on extensive research and enhanced by some 240 illustrations most of which are published here for the first time The territory covered extends from central Canada through Mexico and includes the United States from the Mississippi River west to but not including the Rocky Mountain states Together this volume and its predecessor Pioneer Photographers of the Far West A Biographical Dictionary 1840 1865 comprise an exhaustive survey of early photographers in North America and Central America excluding the eastern United States and eastern Canada This work is distinguished by the large number of entries by the appealing narratives that cover both professional and private lives of the subjects and by the painstaking documentation It will be an essential reference work for historians libraries and museums as well as for collectors of and dealers in early American photography In addition to photographers the book includes photographic printers retouchers and colorists and manufacturers and sellers of photographic apparatus and stock Because creators of moving panoramas and optical amusements such as dioramas and magic lantern performances often fashioned their works after photographs the people behind those exhibitions are also discussed *Library of Congress Catalogs* Library of Congress,1980 Photography ,1891 **Subject Catalog, 1978** Library of Congress,1978 **National Union Catalog** ,1980 Includes entries for maps and atlases **Images of the British Railway Landscape** David Goodyear,2022-05-05 A collection of striking and evocative photography capturing the interplay of trains and the spaces that surround them David Goodyear s approach to railway photography has always been to capture the context of the railway within the landscape in which it finds itself The railway train itself embraces each scene providing the soul and atmosphere where it may dominate or be dominated by the landscape in which it is portrayed alongside the special manner through which it expresses its very character The landscape expresses the train as much as the train expresses the landscape The magnificence and splendor of

a railway viaduct such as that at St Germans or Brunel's engineering masterpiece of the Royal Albert Bridge makes a statement of the railway within the location it is placed. The train crossing the viaduct finds itself enveloped by the architecture of the viaduct and yet characterizes the very function for which the viaduct was built. Steam locomotives always bring a very special sense of mood and movement to a railway landscape but a modern train can also contribute its own soul to the landscape in which the railway participates. Diesel and electric trains possess their own appeal and character such as through an eye-catching livery that conveys a sense of stage appearance on a scene where the aesthetic of the passing train is expressed alongside the location or architecture embracing it. Inspirational scenery, big skies and brooding hills or a patchwork of color in springtime fields can instill a sense of admiration for beauty in nature through which the train passes. Equally expressive are sunlight and shadows and the quality of light through different seasons. The author lives in an area with access to many such awe-inspiring vistas to explore within Devon and Cornwall. Join him on a series of journeys in this collection of his extraordinary photography.
