simplistic vision this created about both countries into a more balanced and careful appraisal of tradition and development Puncturing this stereotype Eugene Genovese wryly notes that as every schoolboy knows Europe's Catholic Right has consisted of reactionaries who began in the service of residual feudal landowners and ended in support of big capital's exploitation and oppression of the masses Still the totalitarian horrors of the twentieth century proved prescient the warnings of the Catholic traditionalist Right about the consequences of radical democracy and cultural nihilism These splendid essays as readable as they are scholarly launch a long overdue assessment of vital political events Ewa Thompson professor of Slavic Studies at Rice University writes The fall of Communism facilitated growth of research in areas previously difficult to access One such area is Polish interest in Spain the history of the Catholic Right in Europe This pioneering volume explores both narratives and succeeds in showing that they are related The similarities have to do with the symmetrical positions of Poland and Spain as frontiers of Europe against invasions from Islam The present collection of papers explores recent history developing against this background
