Mande Music Eric Charry, 2000-10 With Mande Music Eric Charry offers the most comprehensive source available on one of Africa's richest and most sophisticated music cultures. Using resources as disparate as early Arabic travel accounts, oral histories, and archival research, as well as his own extensive studies in Mali, Guinea, Senegal, and the Gambia, Charry traces this music culture from its origins in the thirteenth-century Mali empire to the recording studios of Paris and New York. He focuses on the four major spheres of Mande music: hunter's music, music of the *jelis* or griots, *jembe* and other drumming, and guitar-based modern music, exploring how each evolved, the types of instruments used, the major artists, and how each sphere relates to the others. With its maps, illustrations, and musical transcriptions, as well as an exhaustive bibliography, discography, and videography, this book is essential reading for those seeking an in-depth look at one of the most exciting, innovative, and deep-rooted phenomena on the world music scene. A compact disc is available separately. *Women's Songs from West Africa*

Thomas A. Hale, Aissata G. Sidikou, 2013-12-02 Exploring the origins, organization, subject matter, and performance contexts of singers and singing, *Women's Songs from West Africa* expands our understanding of the world of women in West Africa and their complex and subtle roles as verbal artists. Covering Côte d'Ivoire, the Gambia, Mali, Niger, Nigeria, Senegal, and beyond, the essays attest to the importance of women's contributions to the most widespread form of verbal art in Africa.

Africa and Her Peoples Frank Deaville Walker, 1926 **Creole Societies in the Portuguese Colonial Empire** Philip J. Havik, Malyn Newitt, 2015-10-13 In 2004 a conference was held at King's College London to commemorate the centenary of the birth of Charles Boxer. The theme of the conference was the development of the culturally mixed Portuguese societies in Asia, Africa, and America, which reflected Boxer's own interest in the social history of Portugal's overseas empire. Although the conference papers were published by Bristol University, this volume is long out of print, and the outstanding quality of many of the contributions has made it necessary for this collection to be republished. Portuguese overseas expansion over a period of five centuries led to the formation of many mixed or creole communities which drew culturally not only on Portugal but also on indigenous societies. This cross-cultural interaction gave rise to a creole Portuguese identity that in many cases outlasted the formal empire itself. Reflecting upon the main tenets of Boxer's work, this collection provides a broad geographical perspective upon areas of Portuguese presence in Guinea, Cape Verde, Angola, São Tomé, Brazil, and Goa. The chapters cover a wide range of social strata, including plantation, slave, and maroon communities, private settler traders, and pirates, indigenous trade diasporas, and Luso-African, Luso-Brazilian, and Afro-Brazilian groups, as well as the formation of Creole elites against the background of shifting racial, gender, ethnic, linguistic, and religious boundaries. As such, this collection represents an exercise in subaltern history which shows that the informal social relations were often more important in the long term than the formal structures of empire. **A Dictionary of Military Terms** Edward Samuel
