*African Literature* Jonathan P. Smithe, 2002 African literature like the continent itself is enormous and diverse East Africa s literature is different from West Africa s which is quite different from South Africa s which has different influences on it than North Africa s Africa s literature is based on a widespread heritage of oral literature some of which has now been recorded Arabic influence can be detected as well as European especially French and English Legends myths proverbs riddles and folktales form the mother load of the oral literature This book presents an overview of African literature as well as a comprehensive bibliography primarily of English language sources Accessed by subject author and title indexes

**African Women Writers and the Politics of Gender** Sadia Zulfiqar, 2016-09-23 This work examines the work of a group of African women writers who have emerged over the last forty years While figures such as Chinua Achebe Ben Okri and Wole Soyinka are likely to be the chief focus of discussions of African writing female authors have been at the forefront of fictional interrogations of identity formation and history In the work of authors such as Mariama B Senegal Buchi Emecheta Nigeria Chimamanda Ngozi Adichie Nigeria Tsitsi

Dangarembga Zimbabwe and Leila Aboulela Sudan there is a clear attempt to subvert the tradition of male writing where the female characters are often relegated to the margins of the culture and confined to the domestic private sphere This body of work has already generated a significant number of critical responses including readings that draw on gender politics and colonialism but it is still very much a minor literature and most mainstream western feminism has not sufficiently processed it The purpose of this book is three fold First it draws together some of the most important and influential African women writers of the post war period and looks at their work separately and together in terms of a series of themes and issues including marriage family polygamy religion childhood and education Second it demonstrates how African literature produced by women writers is explicitly and polemically engaged with urgent political issues that have both local and global resonance the veil Islamophobia and a distinctively African brand of feminist critique Third it revisits Fredric Jameson s claim that all third world texts are national allegories and considers these novels by African women in relation to Jameson s claim arguing that their work has complicated Jameson s assumptions

Gray II,2014-09-23 Scholars examining literature from former French colonies sometimes view it wrongly as simply an outgrowth of colonial literature By suggesting new ways to understand the multiple voices present this book explores how Francophone African poetry and theatre in particular since the 1960s constitute both an organic cultural product and a reflection of the diverse African cultures in which they originate Themes explored in five chapters include the many kinds of African identity formation the resistance to former notions of literary composition as art a remapping of social responsibility and the impact of globalization on Francophone Africa s participation in world economics politics and culture This study highlights the inner workings of Francophone African literature and suggests a canonization of modern Francophone works from a world perspective

This book investigates the convergence of feminist literary projects in the Latin American and West African contexts and demonstrates how the authors examined here employ similar writing strategies to re constitute feminine subjects Their writing strives to rid literature and thus international psyches of reductive stereotypes of subaltern women while projecting more complex active female images In portraying the horrific victimization that they and their people have experienced these writers claim a position of authorial power and wield their tragedies along with their words as a weapon against imperial patriarchal and neocolonial tyranny Despite their vast socioeconomic and cultural differences these women share much common ground where they cultivate feminine words of deliverance
