**Sources of the African Past** David Robinson, 1999-06-21 Sources of the African Past combines a case study approach with an emphasis on primary and orally transmitted sources to accomplish three objectives to tell a story in some depth to portray major themes and to raise basic questions of analysis and interpretation The case studies are set in the nineteenth century and deal with critical periods in the fortunes of five societies in different parts of the continent South East and West Africa The authors wish students to work with the raw materials of history and to that end have provided a workbook for a laboratory experience Sources of the African Past is designed for use in a wide variety of courses and in conjunction with other texts The authors have kept their own interpretations to a minimum and invited scrutiny of their decision of selection and arrangement They chose the cases on the basis of several criteria geographical coverage abundance and diversity of primary sources importance in the secondary literature and relevance to important historical problems All the studies emphasize political change All witness some growth in European intervention In selecting the documents the authors sought a balance of perspective without sacrificing accuracy and relevance This means a conscious effort to present a variety of views African and European internal and external participant and observer those of the victims as well as those of the victors those of the people as well as those of the elite Within the limitations of space they have made the excerpts sufficiently long to allow the reader to examine the author's style purpose and other characteristics Keeping in mind the limitations of libraries they have attempted to make each chapter self contained

Theory of African Literature Chidi Amuta,2017-06-15 This groundbreaking work first published in 1989 was one of the first to challenge the conventional critical assessment of African literature and remains highly influential today Amuta s key argument is that African literature can be discussed only within the wider framework of the dismantling of colonial rule and Western hegemony in Africa In exploring the possibility of a dialectical alternative critical base he draws upon both classical Marxist aesthetics and the theories of African culture espoused by Fanon Cabral and Ngugi From these explorations Amuta derives a new language of criticism which is then applied to works by modern African writers as diverse as Achebe Ousmane Agostinho Neto and Dennis Brutus Amuta s highly original and innovative approach remains relevant not only for assessing the literature of developing countries but for Marxist and postcolonial theories of literary criticism more generally The author s elegance of argument and clarity of exposition makes this a distinguished and lasting contribution to debates around cultural expression in postcolonial Africa
