African Realities:

African Realities Kenneth L. Adelman, 1980-01-01 *African Realities* Josep Martí, 2014-10-02 *African Realities* Body Culture and Social Tensions is the result of research anthropology work carried out in different African countries mainly in Equatorial Guinea but also in Senegal Cabo Verde Benin and Ethiopia All the different chapters of this volume address a diversity of subjects related to relevant issues such as gender age social class ethnicity and coloniality which are indispensable for understanding current African realities Furthermore all of these chapters investigate the importance people place on the body and more concretely the manner in which these people present it to others as a common denominator After a brief theoretical introduction about the key concept of the book the social presentation of the body the contributors analyse the results of their own fieldwork taking as a starting point the central role that the body plays in the relationship between the individual and society As is clearly shown in this book the social presentation of the body matters From a general and structural point of view it matters because of its great significance within social logics but it also matters because of its relevant role in situational dynamics of social interaction and because of its close relationship with the emotional registers of individuals If the issue related to the social presentation of the body has an undoubted interest for the academic milieu it is also true that it has great social relevance and constitutes an undeniable political concern The policies related to the social presentation of the body serve to mark justify maintain or even build hierarchical relationships of social order at the level of class gender ethnicity or age Throughout the book and from the African studies perspective different views are offered concerning how the body being not only medium of expression but at the same time a site of experience and construction of the self appears in the centre of social tensions and is an object of strategy control or resistance

Anthropological Prisms Kwesi Kwaa Prah, 2008 The papers presented in this volume date from the beginning of the 1990s and almost span two decades Although the papers may be old the ideas are I dare say ageless They are a sample of my thinking on a number of issues relating to Africa Africans and African society **African Contextual Realities** Rodney L. Reed, 2018-08-14 Everyone who has eyes to see acknowledges the growing importance of the African church to the future of global Christianity But what does it mean for the church to take root in Africa How should the message of the gospel and the practice of Christianity be contextualized for Africa *African Contextual Realities* addresses many of the questions surrounding contextualization from a practical point of view and is the fruit of the 6th Annual Conference of the Africa Society of Evangelical Theology held in Nairobi in 2016 The book explores such questions as In what ways should the mission of God be universally recognizable in every cultural context In our efforts to contextualize how do we avoid compromising the very gospel we are to proclaim How can the African church wean itself away from dependency on the Western church How does Christianity speak into some of the cultural and social issues arising out of contemporary African settings issues like widow cleansing Christian Muslim relations and peace building All those who are interested to learn more about the

contextualization of African Christianity will find this volume to be an important resource

Christological Paradigm Shifts in Prophetic Pentecostalism in South Africa Mookgo Solomon Kgatle, Marius Nel, Collium Banda, 2021-09-22 This book explores recent developments in South African Pentecostalism focusing on new prophetic churches The chapters engage with a number of paradigm shifts in Christology identified as complementing Christ competing with Christ removing Christ and replacing Christ What are the implications of these shifts Does it mean that believers no longer believe in Christ but in their leaders Does it shift believers faith towards materiality than the person of Christ This volume will be valuable for scholars of African Christianity and in particular those interested in the neo prophetic movement and Christology in a South African context

[African Literature, Animism and Politics](#) Caroline Rooney, 2004-01-14 This book marks an important contribution to colonial and postcolonial studies in its clarification of the African discourse of consciousness and its far reaching analyses of a literature of animism It will be of great interest to scholars in many fields including literary and critical theory philosophy anthropology politics and psychoanalysis

[Conflict in Africa](#) Adda Bruemmer Bozeman, 2015-03-08 Do modern Western ideas about the nature of conflict and its resolution apply to Africa To answer this question Adda Bozeman examines conflict in Africa south of the Sahara in its many social political and cultural aspects past and present The author shows how African perspectives on war and diplomacy have evolved under the influence of nonliteracy tribalism and a concept of undifferentiated time In addition she confirms that indigenous cultural traditions are resurgent everywhere making it unlikely that African political values will become more closely aligned with those of the West The two civilizations view conflict differently and have different ways of resolving it The Africans are more at ease with conflict than their Western counterparts and they do not see war and peace as the mutually exclusive phenomena that Occidental societies hold them to be The author concludes that modern Western concepts of conflict not only do not but cannot allow for African realities Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Climate Change Epistemologies in Southern Africa Jörn Ahrens, Ernst Halbmayer, 2023-05-26 This book investigates the social and cultural dimensions of climate change in Southern Africa focusing on how knowledge about climate change is conceived and conveyed Despite contributing very little to the global production of emissions the African continent looks set to be the hardest hit by climate change Adopting a decolonial perspective this book argues that knowledge and discourse about climate change has largely disregarded African epistemologies leading to inequalities in knowledge systems Only by considering regionally specific forms of conceptualizing perceiving and responding to climate change can these global problems be tackled First exploring African epistemologies of climate change the book then goes on to the social impacts of climate change matters of climate justice and finally institutional change and adaptation Providing important insights into the social and cultural perception and communication of climate change in Africa this book will be of interest to researchers from across the fields of African studies sociology anthropology philosophy political science climate change and geography
