After Freud Mary Elsie Robertson, 1981-01-01 *After Freud* is the first novel truly to one up Freudian insights with feminist ones and in a fresh witty manner As a writer Mary Elsie Robertson is a real craftswoman hers is an original hilarious moving and very American voice Thus Robin Morgan Contributing Editor Ms Magazine describes Mary Elsie Robertson s Novel about a world which is after Freud and yet which is all too often Freudian in its underpinnings The novel is the story of the narrator s journey towards understanding her brotherly sisterly marriage and learning to balance roles as writer mother and woman in a world that she moves through for a long time as an innocent The experiences Robertson describes will be familiar to all readers of contemporary fiction about American women What Robertson makes of these experiences is a surprise that points to a better understanding of our timeless turmoil over love and marriage over bonds and freedom *After Freud* is a co winner of the first annual Novel Competition sponsored by the Associated Writing Programs AWP a national non profit organization of writers and writing programs supported by the National Endowment for the Arts

Psychoanalysis After Freud Judy Gammelgaard, 2021 This book draws on a number of Freud s lesser known works to explore psychoanalytic perspectives on memory mourning and repetition It is remarkable that Freud in his speculations on the human psyche often took his point of departure in an insignificant detail It might be a lapse of memory or a detail in a piece of art From here he uncovered the many layers of the psyche its complex structure and the processing of meaning right to the limit of understanding At this point Freud s exploration encountered the unknown an internal outland as difficult to acknowledge as the external reality Freud did not invent the unconscious but he demonstrated how it works The unconscious according to Freud does not exist but insists on making itself visible The eleven essays in this book draws a picture of the critical humanistic thinking so characteristic of Freud His concepts and suppositions were the result of many years speculations based on observation experience and ideas and although they are marked by the time and culture from which they emerged they demonstrate a revolutionary knowledge of the psyche transcending the knowledge of his time The author has added her own afterthoughts and critical comments and read the chosen texts into a contemporary context Examining how psychoanalytic work on the topics of memory mourning and repetition has changed since Freud and how these themes remain of crucial importance in contemporary psychoanalytic theory this book intersperses theory with clinical practice It will be of great interest to training and practicing Psychoanalysts as well as scholars of Art Literature and Sociology

Reading After Freud Rainer Nägele, 1987 Nietzsche's Presence in Freud's Life and Thought Ronald Lehrer, 1995-01-01 This book examines the nature of Freud s relationship to the philosopher Friedrich Nietzsche Nietzsche regarded himself among other things as a psychologist His psychological explorations included an understanding of the

meaning and function of dreams the unconscious sublimation of drives drives turned inward upon the self unconscious guilt unconscious envy unconscious resistance and much more that anticipated some of Freud's fundamental psychoanalytic concepts Although Freud wrote of Nietzsche having anticipated psychoanalytic concepts he denied that Nietzsche had any influence on his thought

Dreams of Authority Ronald R. Thomas, 1990 *Freud's Wishful Dream Book* Alexander Welsh, 1994-09-19 Although it is customary to credit Freud's self-analysis it may be more accurate Alexander Welsh argues to say that psychoanalysis began when *The Interpretation of Dreams* was published in the last weeks of the nineteenth century Only by going public with his theory that dreams manifest hidden wishes did Freud establish a position to defend and embark upon a career That position and career have been among the most influential in this century In August 1899 Freud wrote to Wilhelm Fliess of the dream book in terms reminiscent of Dante's *Inferno* Beginning from a dark wood this modern journey features a concealed pass through which I lead the reader my specimen dream with its peculiarities details indiscretions bad jokes and then suddenly the high ground and the view and the question Which way do you wish to go now Physician that he is Freud appoints himself guide rather than hero yet the way you wish to go is very much his prescribed way In Welsh's book readers are invited on Freud's journey to pause at each concealed pass in his seminal work and ask where the guide is taking them and why Along the way Welsh shows how Freud's arbitrary turnings are themselves wishful intended to persuade by pleasing the reader and author alike that his interest in secrets and his self-proclaimed modest ambition are products of their time and that the book may best be read as a romance or serial comedy Some of the humor throughout Welsh notes can only be understood as a particular kind of fine performance Welsh offers the first critical overview of the argument in Freud's masterpiece and of the author who presents himself as guide

Narrative Theory: Special topics Mieke Bal, 2004

The Distinction of Fiction Dorrit Cohn, 2000-12 Winner of the Aldo and Jeanne Scaglione Prize for Comparative Literary Studies from the Modern Language Association Winner of the Modern Language Association's Aldo and Jeanne Scaglione Prize for Comparative Literary Studies The border between fact and fiction has been trespassed so often it seems to be a highway Works of history that include fictional techniques are usually held in contempt but works of fiction that include history are among the greatest of classics Fiction claims to be able to convey its own unique kinds of truth But unless a reader knows in advance whether a narrative is fictional or not judgment can be frustrated and confused In *The Distinction of Fiction* Dorrit Cohn argues that fiction does present specific clues to its fictionality and its own justifications Indeed except in cases of deliberate deception fiction achieves its purposes best by exercising generic conventions that inform the reader that it is fiction Cohn tests her conclusions against major narrative works including Proust's *A la Recherche du temps perdu* Mann's *Death in Venice* Tolstoy's *War and Peace* and Freud's case studies She contests widespread poststructuralist views that all narratives are fictional On the contrary she separates fiction and nonfiction as necessarily distinct even when bound together An expansion of Cohn's Christian Gauss lectures at Princeton and the product of many years of labor and thought
