## After Marxism:

**After Marxism** Ronald Aronson, 1994-11-23 After Marxism calls for a new radical coalition centered around morality and utopian sensibility The book explores the kinds of commitments values and approaches to social realities that may still be described as radical today These include the determination to end every form of oppression a freedom to combine many different theories and kinds of analysis an open and experimental attitude an appreciation of modernity s great promise of being on our own an understanding that radical social change encompasses attitudes and behaviors as well as structures and systems and a commitment to uniting the various potential radical groups strands and energies into a new radical coalition a heterogeneous we founded on a deep sense of solidarity *Marx After Marxism* Tom Rockmore, 2008-04-30 Marx After Marxism encourages readers to understand Karl Marx in new ways unencumbered by political Marxist interpretations that have long dominated the discussions of both Marxists and non Marxists This volume gives a broad and accessible account of Marx s philosophy and emphasizes his relationship to Hegel Marx After Marx Harry Harootunian, 2015-10-27 In Marx After Marx Harry Harootunian questions the claims of Western Marxism and its presumption of the final completion of capitalism If this shift in Marxism reflected the recognition that the expected revolutions were not forthcoming in the years before World War II its Cold War afterlife helped to both unify the West in its struggle with the Soviet Union and bolster the belief that capitalism remained dominant in the contest over progress This book deprovincializes Marx and the West s cultural turn by returning to the theorist s earlier explanations of capital s origins and development which followed a trajectory beyond Euro America to Asia Africa and Latin America Marx s expansive view shows how local circumstances time and culture intervened to reshape capital s system of production in these regions His outline of a diversified global capitalism was much more robust than was his sketch of the English experience in Capital and helps explain the disparate routes that evolved during the twentieth century Engaging with the texts of Lenin Luxemburg Gramsci and other pivotal theorists Harootunian strips contemporary Marxism of its cultural preoccupation by reasserting the deep relevance of history Marxism after Marx David McLellan, 1998-09-30 The third edition of Marxism after Marx is an updated version of what has become the classic account of twentieth century Marxism It includes new bibliographical information and sections covering developments over the last decade This new edition represents a comprehensive and reliable guide to one of the most influential bodies of thought of our century Marxism after Modernity R. Abbinnett, 2006-10-31 Marxism After Modernity is concerned with the ways in which Marxist theory has responded to the major social economic and technological transformations of capitalism which have occurred in the late twentieth and early twenty first centuries Marxism after Marx, Fourth Edition David McLellan, 2007-03-15 The fourth edition of Marxism after Marx is an updated version of what has become the classic account of twentieth century Marxism It includes new bibliographical information and sections covering developments since the previous edition This new edition represents a comprehensive and reliable guide to one of the most

influential bodies of thought of the twentieth century *After Marx* Terence Ball, James Farr, 1984-06-29 These twelve original essays are after Marx in several senses The first and most obvious is the purely chronological sense They are written one hundred years after Marx's death The authors are therefore able to see more clearly what Marx did not or could not see and to see more clearly that which he foresaw only dimly The second sense in which they are after Marx is political In this century virtually all revolutionaries call themselves Marxists and purport to apply Marx's precepts to political practice Armed with their different interpretations of a nineteenth century theory they have altered and continue to reshape the political contours of the twentieth century Marx raised more questions than he or anyone else could ever reasonably hope to answer To raise anew some of these questions and to approach them in the critical spirit of Marx's own thinking are the common themes running through and uniting these essays

**After Marx** Colleen Lye, Christopher Nealon, 2022-03-17 *After Marx* showcases the importance of Marxist literary study for an era of intersectional politics and economic decline **Circling Marx: Essays 1980-2020** Peter Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime's engagement with Marx and his intellectual consequences

*After Marx, Before Lenin* Gary P. Steenson, 2010-11-23 In this book Gary P Steenson offers new interpretations of the history and nature of socialist movements in Germany France Austria and Italy from after Karl Marx's death until World War I Based largely on Friedrich Engels's correspondence and those of other socialist party leaders Steenson analyzes Engels's view of European politics and those of his strategic counsel He also derives the standards of Marxian orthodoxy from party publications and the political press The central importance of Engels is clear as is the seductive appeal of his frequently insightful often misguided counsel to working politicians Steenson also finds that this period saw no contradiction in adherence to Marxism and full participation in democratic representative politics and that in those countries where democratic forms did not exist Marxists led the struggle to obtain them

*Marx and Modernity* Robert Antonio, 2008-04-15 In this illuminating and concise collection of readings Karl Marx emerges as the first theorist to give a comprehensive social view of the birth and development of capitalist modernity that began with the Second Industrial Revolution and still exists today **The Interregnum: Controversies in World Politics 1989-1999** Michael Cox, Ken Booth, Timothy Dunne, 1999 *The Interregnum Controversies in World Politics 1989-1999* is a series of critical reflections on the major controversies in and about world politics in the 1990s We are living in an era which seemingly defies description in social and political theory our age is frequently referred to as post modern in international relations we remain in the post Cold War age The age is only

characterised by what it is not This collection of critical reflections written by leading scholars in the field sheds light on the meanings of world politics in what we are calling The Interregnum The central question of the Special Issue might be put as follows what do the major controversies in world politics in the 1990s tell us about the characteristics of the age who we are and where world politics might be going

**Routledge International Handbook of Contemporary Social and Political Theory** Gerard Delanty, Stephen P. Turner, 2011-03-23 The Handbook will address a range of issues that have emerged out of recent social and political theory It will focus on key themes as opposed to schools of thought or major theorists Each chapter is an emerging cutting edge topic that is of interest both to social theory and to political theory Most topics will have a clear and substantive focus on social or political problems

*Routledge Handbook of Marxism and Post-Marxism* Alex Callinicos, Stathis Kouvelakis, Lucia Pradella, 2020-12-29 In the past two decades Marxism has enjoyed a revitalization as a research program and a growth in its audience This renaissance is connected to the revival of anti capitalist contestation since the Seattle protests in 1999 and the impact of the global economic and financial crisis in 2007 8 It intersects with the emergence of Post Marxism since the 1980s represented by thinkers such as Jürgen Habermas Chantal Mouffe Ranajit Guha and Alain Badiou This handbook explores the development of Marxism and Post Marxism setting them in dialogue against a truly global backdrop Transcending the disciplinary boundaries between philosophy economics politics and history an international range of expert contributors guide the reader through the main varieties and preoccupations of Marxism and Post Marxism Through a series of framing and illustrative essays readers will explore these traditions starting from Marx and Engels themselves through the thinkers of the Second and Third Internationals Rosa Luxemburg Lenin and Trotsky among others the Tricontinental and Subaltern and Post Colonial Studies to more contemporary figures such as Huey Newton Fredric Jameson Judith Butler Immanuel Wallerstein and Samir Amin The Routledge Handbook of Marxism and Post Marxism will be of interest to scholars and researchers of philosophy cultural studies and theory sociology political economics and several areas of political science including political theory Marxism political ideologies and critical theory

Kerr, 1915 **Marxism After Marx** Herbert Gamberg, Tony Thomson, Zhanbin Ma, 2016-05-01 The major aim of this book is to examine and critique the political movements that Marx directly confronted or that derived from Marx following his death in 1883 when a variety of Marxist parties arose in opposition to one another
