After Vajpayee Who:

India's Nuclear Policy Since 1998 Rameez Raja, 2025-02-13 This unique book examines India's nuclear policy in both the military and civilian sectors. It combines empirical research with a historical approach and outlines a theoretical framework to address India's nuclear policy covering international relations concepts such as nuclear brinkmanship, the stability-instability paradox, and defensive and offensive realism. The author points to the problems of nuclear deterrence in South Asia due to irrationality among politicians in India and Pakistan. Furthermore, India and Pakistan's concealment of their nuclear policies indicates instability. Both India and Pakistan have a distorted perception of the security crisis in South Asia. India's nuclear civilian sector has a lengthy history of nuclear disasters. It violates international safety standards while operating nuclear facilities. Other difficulties such as radiation leaks and displaced villages pose significant challenges to India's nuclear industry. Due to a lack of fuel, India is having difficulty operating its nuclear units for dual usage. Despite not being a signatory to the NPT, it received a Nuclear Supplier Group waiver in 2008 to power its nuclear reactors. The book will be of keen interest to students and researchers in international relations, global politics, South Asian politics, and nuclear safety issues, both military and civilian.

Electoral democracy combines the ideas and practices of warfare and welfare where both work in tandem as near synonyms. India's robust electoral democracy exemplifies this combination in diverse forms. Critically analysing the 2014 Parliamentary elections beyond the seduction of immediacy and bare cold statistics, this book puts human subjectivity at the centre of election studies and through an anthropological, sociological approach makes lives human and non-human lived and unlived or unlivable central to any understanding of elections and democracy. Crafting a new comprehensive approach, this volume looks at the 2014 elections in relation to the changing nature and forms of elections and democracy globally. Coming from multidisciplinary backgrounds, the contributors to this volume use ethnographic observations to open up a space for new theoretical and methodological reflections on the role of media in Indian elections, the shift to the right in 2014 and its consequences, the significance of traditional Hindu spaces such as the river Ganga in BJP's victory, the role of gurus like Baba Ramdev, and the electoral choices available to and exercised by the minorities among others.
