After Eden The Secularization Of American Space In The Fiction:

After Eden Conrad Eugene Ostwalt,1990 The transformation of the American sense of religious identity and destiny that occurred toward the end of the nineteenth century and the beginning of the twentieth is illustrated through a literary and cultural analysis of the fiction of Willa Cather and Theodore Dreiser **Secular Steeples 2nd Edition** Conrad Ostwalt,2012-11-29 The Scandinavian Nordic countries of Denmark Norway Sweden and Finland experienced the effects of the German invasion in April 1940 in very different ways Collaboration resistance and co belligerency were only some of the short term consequences Each country s historiography has undergone enormous changes in the seventy years since the invasion and this collection by leading historians examines the immediate effects of Hitler s aggression as well as the long term legacies for each country s self image and national identity The Scandinavian countries war experience fundamentally changed how each nation functioned in the post war world by altering political structures the dynamics of their societies the inter relationships between the countries and the popular view of the wartime political and social responses to totalitarian threats Hitler was no respecter of the rights of the Scandinavian nations but he and his associates dealt surprisingly differently with each of them In the post war period this has caused problems of interpretation for political and cultural historians alike Drawing on the latest research this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War **Between the Angle and the Curve** Danielle Russell,2006-04-14 In this study Russell explores the ways in which Willa Cather and Toni Morrison subvert the textual expectations of gendered geography and push against the boundaries of the official canon As Russell demonstrates the unique depictions Cather and Morrison create of the American landscape challenge existing assertions about American fiction Specifically Russell argues that looking at the intimate connections between space gender race and identity as they play out in the fiction of Cather and Morrison refutes the myth of a unified American landscape and thus opens up the territory of American fiction **Secular Steeples** Conrad Ostwalt,2003-03-24 Conrad Ostwalt explores the confluence of religion and popular cultural forms in the secular world demonstrating that a secular religiosity has co opted some of the functions previously reserved for religions institutions *Shakespeare and the Modern Novel* Graham Holderness,2024-10-01 The Shakespearean novel is undergoing a renaissance as the long prose narrative form becomes reinvigorated through new forms of media such as television film and the internet *Shakespeare and the Modern Novel* explores the history of the novel as a literary form suggesting that the form can trace its strongest roots beyond the eighteenth century work of Daniel Defoe Henry Fielding and Samuel Richardson to Shakespeare s plays Within this collection well established Shakespeare critics demonstrate that the diversity and flexibility of interactions between Shakespeare and the modern novel are very much alive **Dreiser Studies** ,1992 Twentieth-century Short Story Explication ,1989 Willa Cather and the Myth of American Migration Joseph R. Urgo,1995 In a land where there is constant migration can there be a homeland In the United States migration is initially

experienced as immigration but the process never achieves closure Migration continues as transience restless unsettled movement across social and economic classes states and national borders In this nuanced study grounded in literature history and popular culture Joseph Urgo demonstrates that American culture and our sense of national identity are permeated by unrelenting incessant and psychic mobility across spatial historical and imaginative planes of existence There is no better example of a writer reflecting on this migratory consciousness than Willa Cather At home in numerous locations Nebraska New York New Hampshire Pennsylvania Maine and Canada Cather infused her novels with the cultural vitality that is a consequence of transience By locating transience at the center of his conception of our national culture Urgo redefines the mythos of American national identity and global empire He concludes with an analysis of a potential New World Order in which migration replaces homeland as the foundation of world power

Mechanism and Mysticism Louis J. Zanine, 1993 In the next decades his discovery of scientific mechanism would reveal a universe that was a well ordered machine and it is in the context of Dreiser s reading of the mechanistic philosophy of Jacques Loeb and others that Zanine examines *An American Tragedy* and *The Hand of the Potter* The philosophy of mechanism combined with his understanding of evolutionary thought provided Dreiser with a scientific world view that gave him a coherent system of beliefs about human beings place in the universe their origins and the bases of their behavior Yet Zanine demonstrates that Dreiser never fully adopted the stark materialism or atheism of the mechanists He continued to have a deeply superstitious side and a number of experiences with fortune tellers seances ouija boards and spirit apparitions convinced him of the existence of some controlling supernatural force in the universe
