## **After God The Future Of Religion:**

*After God* Don Cupitt, 1997-04-18 Considers the fate of religion the evolution of religious belief from the dawn of the gods to their twilight and tomorrow Challenges us to see religion less as an ideology and more as a tool kit a set of techniques perhaps an art form enhancing our lives the way that literature and art do

**God After God** Robert W. Jenson, 1969 Karl Barth is recognized throughout the world as the twentieth century's leading Protestant theologian His thought has determined much of the shape of today's Christian thinking yet it is thoroughly misunderstood He is a systematic theologian who writes with great complexity and in a scholastic vein This fine and lucid study isolates Barth's most specific themes and focuses on the relevance of his radically trinitarian doctrine of God to the postreligious situation The book opens with a discussion of the death of historical religion and Barth's early attempts to deal with the decline of belief in a transcendent God contrasted with contemporary views of the situation It goes on to treat Barth's further studies especially his attack on the theology of religion and there is a discussion in depth of Barth's doctrine of the Trinity as a definition of God It concludes with an analysis of the different interpretations that can be have been made of Barth's theology

*Life After Death and the Future of the Kingdom of God* Lars Nilsen Dahle, 1896

**After God** Mark C. Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis *After God* redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology *After God* concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description

[God After Darwin](#) John F. Haught, 2018-05-04 In *God After Darwin* eminent theologian John F Haught argues that the ongoing debate between

Darwinian evolutionists and Christian apologists is fundamentally misdirected. Both sides persist in focusing on an explanation of underlying design and order in the universe. Haught suggests that what is lacking in both of these competing ideologies is the notion of novelty, a necessary component of evolution and the essence of the unfolding of the divine mystery. He argues that Darwin's disturbing picture of life, instead of being hostile to religion as scientific skeptics and many believers have thought it to be, actually provides a most fertile setting for mature reflection on the idea of God. Solidly grounded in scholarship, Haught's explanation of the relationship between theology and evolution is both accessible and engaging. The second edition of *God After Darwin* features an entirely new chapter on the ongoing controversial debate between intelligent design and evolution, including an assessment of Haught's experience as an expert witness in the landmark case of *Kitzmiller v. Dover Area School District* on teaching evolution and intelligent design in schools. *Preaching After God* Phil Snider, 2012-08-01

Even though the postmodern return of religion is dramatically shaping the future of twenty-first century theology, its riches for preaching are rarely mined. *Preaching After God* highlights the trajectories of the postmodern return of religion by introducing readers to the positive theological themes stirring in the work of influential philosophers like Jacques Derrida, John Caputo, and Slavoj Žižek. Phil Snider shows how engaging their thought provides possibilities for preaching that highly resonate with postmodern listeners. Preachers familiar with the postmodern return of religion will appreciate its homiletical appropriation, while those introduced to it for the first time will discover just how much it is helpful for the preaching task. Six lectionary-based sermons are included as examples. **Ancient-Future Faith** Robert E. Webber, 1999-11

In a world marked by relativism, individualism, pluralism, and the transition from a modern to a postmodern worldview, evangelical Christians must find ways to re-present the historic faith. In his provocative new work *Ancient Future Faith*, Robert E. Webber contends that present-day evangelicalism is a product of modernity. Allegiance to modernity, he argues, must be relinquished to free evangelicals to become more consistently historic. Empowerment to function in our changing culture will be found by adapting the classical tradition to our postmodern time. Webber demonstrates the implications in the key areas of church worship, spirituality, evangelism, nurture, and mission. Webber writes: "The fundamental concern of *Ancient Future Faith* is to find points of contact between classical Christianity and postmodern thought. Classical Christianity was shaped in a pagan and relativistic society, much like our own. Classical Christianity was not an accommodation to paganism but an alternative practice of life. Christians in a postmodern world will succeed not by watering down the faith but by being a counter-cultural community that invites people to be shaped by the story of Israel and Jesus." A substantial appendix explores the development of authority in the early church, an important issue for evangelicals in a society that shares many features with the Roman world of early Christians. Students, professors, pastors, and laypeople concerned with the church's effective response to a postmodern world will benefit from this paradigmatic volume. Informative tables and extensive bibliographies enhance the book's educational value. Amazon [Eschatology and the Technological Future](#) Michael S.

Burdett,2014-12-05 The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like These technological futurisms have arisen from significant advances in the fields of nanotechnology biotechnology and information technology and are drawing growing scrutiny from the philosophical and theological communities This text seeks to contextualize the growing literature on the cultural philosophical and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological future with Pierre Teilhard de Chardin and Jacques Ellul Burdett s argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney Eberhard J ngel and J rgen Moltmann Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo Christian understanding of the future

**After the Death of God** Gianni Vattimo,John D. Caputo,2009-07-22 It has long been assumed that the more modern we become the less religious we will be yet a recent resurgence in faith has challenged the validity of this belief In these original essays and interviews leading hermeneutical philosophers and postmodern theorists John D Caputo and Gianni Vattimo engage with each other s past and present work on the subject and reflect on our transition from secularism to postsecularism Caputo and Vattimo explore the changes distortions and reforms that are a part of our postmodern faith and the forces shaping the religious imagination today Incisively and imaginatively connecting their argument to issues ranging from terrorism to fanaticism and from politics to media and culture these thinkers continue to reinvent the field of hermeneutic philosophy with wit grace and compassion

**The Christian Advocate** ,1929 **The Secularization Debate** William H. Swatos, Jr.,2000-05-30 Introduced to social scientific audiences by Max Weber the concept of secularization has had a major influence on the way in which religion has been understood in the West since the 1960s but since the late 1980s both its predictive and descriptive adequacy has been seriously challenged The Secularization Debate is a collection of essays by prominent American and European scholars that forcefully delineates the critical issues pivotal to the hotly contested concept of secularization and its continued relevance in the postmodern era

**The Future of Faith** Harvey Gallagher Cox,2009-08-19 Legendary Harvard religion scholar Harvey Cox offers up a new interpretation of the history and future of religion Cox identifies three fundamental shifts over the last 2 000 years of church history The Age of Faith was when the early church was more concerned with following Jesus teachings than enforcing what to believe about Jesus The Age of Belief marks a significant shift between the fourth and twentieth centuries when the church focused on orthodoxy and right beliefs The Age of the Spirit that began in the 1960s and is shaping not just Christianity but other religious traditions today is ignoring dogma and breaking down barriers between different religions Spirituality is replacing

formal religion Reflecting on how his own faith journey mirrors these three historical shifts Cox personalizes the material in a compelling practical ways The Future of Faith is a major statement by one of the most revered theologians today
