After The Ruins 1906 And 2006:

After the Ruins, 1906 and 2006 Mark Klett, Michael Lundgren, Philip L. Fradkin, Rebecca Solnit, Karin Breuer, Legion of Honor (San Francisco, Calif.), 2006 How has San Francisco's urban landscape changed in the hundred years since the earthquake and cataclysmic firestorms that destroyed three quarters of the city in 1906 For this provocative rephotography project photographer Klett has gone to the same locations pictured in 45 photographs taken in the days following the 1906 earthquake and fires and precisely duplicated each photograph's vantage point The result is a powerful comparison that challenges our preconceptions about time history and culture Features an essay by noted environmental historian Philip Fradkin on the events surrounding and following the 1906 earthquake which he describes as the equivalent of an intensive three day bombing raid Publisher description *Authentic Reconstruction* John Bold, Peter Larkham, Robert Pickard, 2017-12-14 Notions of authenticity lie at the heart of many questions about heritage and identity in the built environment These questions are most pertinent when buildings have been destroyed in disaster or war and the built fabric is being reconstructed to reinstate traditional or historic appearances in place of what was lost *Authentic Reconstruction* examines this idea of reconstruction using it as a prompt to examine a range of deeper issues on heritage and the built environment From post WWII reconstruction programmes through to the rebuilding of historic cultural landscapes lost in natural disasters this collection of essays by heritage specialists provides a wide range of case studies and discussions Each presents responses to crises and lessons learned in order to extrapolate general guidelines for future actions by politicians architects and planners in reconstructing buildings The book also looks beyond disaster and war noting how authenticity bears on political intentions and image building exploring how reconstruction is used to tell a political or historical story so conditioning the ways in which the built environment is perceived and appreciated by its users This is not just about the buildings as bricks and mortar but about perceptions of identity and the social and historical values which buildings and spaces embody for a richly diverse population This book will be valuable to all who are concerned with heritage as practitioners or consumers particularly those concerned with reconstruction and the creation of authentic places and experiences architects architectural historians town planners preservationists conservationists and those involved in heritage management and material culture **Wyoming Revisited** Michael A.
