Jobs After War Eugenia Date-Bah,2003 This publication examines the critical role of employment in post conflict reconstruction and considers effective practical approaches to help achieve sustainable peace building It contains papers and country case studies which provide a broad picture of the key issues involved including the nature of the labour market and other features of the post conflict situation the diversity of crisis affected groups and their specific concerns such as youth women refugees internally displaced people and ex combatants skills training local economic development micro finance labour intensive infrastructure rebuilding social protection the roles of the private sector co operatives workers and employers associations labour administration and international organisations *Reconciliation after War* Rachel Kerr, Henry Redwood, James Gow, 2021-01-06 This edited volume examines a range of historical and contemporary episodes of reconciliation and anti reconciliation in the aftermath of war Reconciliation is a concept that resists easy definition At the same time it is almost invariably invoked as a goal of post conflict reconstruction peacebuilding and transitional justice This book examines the considerable ambiguity and controversy surrounding the term and crucially asks what has reconciliation entailed historically What can we learn from past episodes of reconciliation and anti reconciliation Taken together the chapters in this volume adopt an interdisciplinary approach focused on the question of how reconciliation has been enacted performed and understood in particular historical episodes and how that might contribute to our understanding of the concept and its practice Rather than seek a universal definition the book focuses on what makes each case of reconciliation unique and highlights the specificity of reconciliation in individual contexts This book will be of much interest to students of transitional justice conflict resolution human rights history and International Relations **The American Artisan and Hardware Record** ,1918 [Living politics after war](#) Johanna Söderström,2020-12-15 Life after war is intrinsically political for former combatants As wars end societies and former combatants face a period of transition This book explores the experience of coming home for former combatants capturing the challenges and opportunities for political mobilization among former combatants as they return from three very different wars South West Africa People s Organization combatants who participated in the Namibian War of Independence 1966 90 guerrillas from Movimiento 19 de Abril who joined the ongoing guerilla warfare conducted against the Colombian state 1974 90 and combatants from the United States who participated in the Vietnam War 1955 75 Offering an insightful perspective on peace as a process through the long term study of the lives of fifty former combatants S derstr m demonstrates how the process of coming home shapes their political commitment and identity Combining detailed scholarship with interviews with former combatants this volume serves as a powerful reminder of the legacies of war in the lives of former combatants *Journal of the Switchmen's Union* Switchmen's Union of North America,1918 [Iron Trade Review](#) ,1917 **Justice After War** David Chiwon Kwon,2023-05-12 Justice After War is aimed especially to both undergraduate and graduate students as well as the general audience who want to

understand the significance of a recent development within the just war tradition namely the increasing attention given to the category of jus post bellum postwar justice and peace While examining the interrelated challenges of moral and social norms in both political and legal domains as well as church practices this work proposes an innovative methodology for linking theology ethics and social science so that the ideal and the real can inform each other in the ethics of war and peacebuilding The main task of this project then is to identify what the author views as three key themes of jus post bellum and three practices that are essential to implementing jus post bellum immediately after a war just policing just punishment and just political participation David Kwon endeavors to challenge the view of those who suggest that reconciliation mainly political reconciliation is the foremost ambition of jus post bellum Instead he attempts to justify the proposition that achieving just policing just punishment and just political participation are essential to building a just peace a peace in which the fundamental characteristic must be human security It thus demonstrates that human security is an oft neglected theme in the recent discourse of moral theologians and that a more balanced understanding of jus post bellum will direct attention to the elements composing human security in a postwar context

Youth's Companion ,1914 **Writing after War** John Limon,1994-07-07 In Writing After War John Limon develops a theory of the relationship of war in general to literature in general in order to make sense of American literary history in particular Applying the work of war theorists Carl von Clausewitz and Elaine Scarry John Limon argues that The Iliad inaugurates Western literature on the failure of war to be duel like to have a beautiful form War s failure is literature s justification American literary history is demarcated by wars as if literary epochs like the history of literature itself required bloodshed to commence But in chapters on periods of literary history from realism generally taken to be a product of the Civil War through modernism usually assumed to be a prediction or result of the Great War up to postmodernism which followed World War II and spanned Vietnam Limon argues that despite the looming presence of war in American history the techniques that define these periods are essentially ways of not writing war From James and Twain through Fitzgerald Faulkner and even Hemingway to Pynchon our national literary history is not hopelessly masculinist Limon argues Instead it arrives naturally at Bobbie Ann Mason and Maxine Hong Kingston Kingston brings the discussion full circle The Woman Warrior like The Iliad appears to condemn the fall from duel to war that is literature s endless opening
