Age Of Rights:

The Age of Rights Louis Henkin, 1990 This text explores the principal issues and developments both in international human rights and in rights in the United States and then compares the concepts and conditions of rights in various parts of the world It pays particular attention to the role of US foreign policy

The Age of Rights Louis Henkin, 1990 Young People's Human Rights and the Politics of Voting Age Sonja C. Grover, 2010-10-05 *Young People's Human Rights and The Politics of Voting Age* explores the broader societal implications of voting age eligibility requirements and the legislative bar against youth voting in North America and in Commonwealth countries where youth is defined as persons 16 and over but under age 18 The issue is raised as to whether the denial of the youth vote undermines democratic principles and values and ultimately the human dignity of youth This is the first book to address the topic of the youth vote in depth as a fundamental human rights concern relating to the entitlement in a democracy to societal participation and inclusion in influencing policy and law which profoundly affects one's life Also examined are international perspectives on the issue of voting age eligibility The book would be extremely valuable for instructional purposes as one of the primary texts in undergraduate or graduate courses on children's human rights political psychology political science sociology of law or society and as a supplementary text for courses on human rights or constitutional law and would be of interest also to members of the general public concerned with children's human rights issues

Age Discrimination And Children's Rights Claire Breen, 2006 One of the aims of the United Nations Convention on the Rights of the Child is to accord due recognition to the fact that the child by reason of his physical and mental immaturity needs special safeguards and care including appropriate legal protection before as well as after birth However a question mark hangs over the extent to which special safeguards and care can negatively impact on the rights of the child and result in discrimination against the child in the guise of his physical and mental immaturity This volume explores the extent to which children's rights are secured at the national level and the reasons why children's rights have or have not been recognised and secured by various states at the level of domestic law It also explores the difficulties inherent in the accordance of rights to children in order to ascertain whether they do in fact derive from the particular nature of children or whether they mask a reluctance of states to fulfil their domestic and international rights obligations to children and whether such reluctance constitutes discrimination against children The volume thus explores the theoretical and legal underpinnings of gender and race discrimination at both the domestic and international level and examines the extent to which these may be applied to the area of children's rights

Children's Rights Law in the Global Human Rights Landscape Eva Brems, Ellen Desmet, Wouter Vandenhoele, 2017-04-21 Children's rights law is often studied and perceived in isolation from the broader field of human rights law This volume explores the inter relationship between children's rights law and more general human rights law in order to see whether elements from each could successfully inform the other Children's rights law has a number of distinctive characteristics such as the emphasis on the best interests

of the child the use of general principles and the inclusion of third parties e g parents and other care takers in treaty provisions The first part of this book questions whether these features could be a source of inspiration for general human rights law In part two the reverse question is asked could children s rights law draw inspiration from developments in other branches of human rights law that focus on other specific categories of rights holders such as women persons with disabilities indigenous peoples or older persons Finally the interaction between children s rights law and human rights law and the potential for their isolation inspiration or integration may be coloured or determined by the thematic issue under consideration Therefore the third part of the book studies the interplay between children s rights law and human rights law in the context of specific topics intra family relations LGBTQI marginalization migration media the environment and transnational human rights obligations
