Age Of Transition:

Railway Age Gazette, 1911 *Linking Ages* Anna Wanka, Tabea Freutel-Funke, Sabine Andresen, Frank Oswald, 2024-11-14 When we ponder about whether it is time to finish a degree start a family or retire we often draw on age to make an assessment When are we too young or too old to do something and what age is the right one Age thereby is a central social category for Western societies more than gender ethnicity or social status age affects our social position networks lifestyles and aspirations By asking what childhood and ageing research can learn from each other this edited volume brings both fields into a fruitful dialogue It touches upon topics like theories and method olog ies space and time health and care technologies and digitalization play work and consumption as well as violence well being and childrens and older peoples rights This volume will appeal to scholars and students interested in childhood studies and ageing studies gerontology located in a range of disciplines from sociology to social work social and cultural anthropology educational sciences human geography architecture urban planning architecture health and disability studies nursing studies political sciences and law Los Angeles Educational Research Bulletin Board of Education of the City of Los Angeles, 1927 **Iron and the Iron Age** Christopher Pare, 2025-05-01 A comprehensive account of the adoption of ironworking in Europe and Western Asia based on archaeological evidence alongside written sources from the Near East Southern Europe and the Near East are the focus but the book also considers early ironworking in Central Europe the North Pontic steppe and the regions north and south of the Caucasus **Social Networks and the Life Course** Duane F. Alwin, Diane H. Felmlee, Derek A. Kreager, 2018-03-06 This volume engages the interface between the development of human lives and social relational networks It focuses on the integration of two subfields of sociology social science the life course and social networks Research practitioners studying social networks typically focus on social structure or social organization ignoring the complex lives of the people in those networks At the same time life course researchers tend to focus on individual lives without necessarily studying the contexts of social relationships in which lives are embedded and linked to one another through social networks These patterns are changing and this book creates an audience of researchers who will better integrate the two subfields It covers the role of social networks across the life span from childhood and adolescence to midlife through old age **The End of the Unrepentant** J. Webb Mealy, 2012-12-24 The End of the Unrepentant stands as the most thorough exegetical analysis of the biblical teachings about the fate of the unrepentant ever written Following up the author s acclaimed monograph *After the Thousand Years Resurrection and Judgment in Revelation 20* this study makes use of the nexus of the Isaiah Apocalypse Isa 24 27 and Revelation 20 as a paradigm or interpretive lens through which to understand the teachings of the Psalms the Prophets Jesus and the NT about resurrection judgment and the divergent futures of the faithful and the unrepentant The question of whether hell is everlasting has been a topic of interest for many decades now among evangelicals and the controversy has only intensified in recent years Many Christians feel uneasy about

the idea of everlasting torment but their belief in the authority of Scripture leaves them feeling that this doctrine is inescapable The End of the Unrepentant is written for them It mounts a unique positive exegetical argument for annihilationism an argument so thoroughly founded on the prophetic words of Jesus Isaiah and John that it shifts the exegetical burden of proof to those who would wish for theological reasons to affirm everlasting torment

Globalizing Migration Regimes Joakim Palme,Kristof Tamas,2012-12-28 It has been half a century since the Geneva Refugee Convention came into place but there is still no comparable international regime which provides for the increasing phenomenon of mobile economic migrants At a time of global mobility when migration policies are constantly changing and the security and rights of migrants are called into question there is clearly a need for strengthened international cooperation This volume brings together an international team of authors to examine the prospects for improvements in such cooperation and for the establishment of a framework of basic global or regional norms of conduct Issues addressed in the book include how to augment the development effects of migration for source countries how to meet the security and rights interests of both states and migrants and how to improve the prospects for integration of migrants in destination countries With its fresh policy focused and global approach this volume will be of great value to both academics and policy makers
