The Age of Reformation E. Harris Harbison, 2013-04-12 In *The Age of Reformation* first published in 1955 E Harris Harbison shows why sixteenth century Europe was ripe for a catharsis New political and social factors were at work the growth of the middle classes the monetary inflation resulting from an influx of gold from the New World the invention of printing the trend toward centralization of political power Against these developments Harbison places the church nearly bankrupt because of the expense of defending the papal states supporting an elaborate administrative organization and luxurious court and financing the crusades The Reformation as he shows was the result of a long slow shifting of social conditions and human values to which the church was not responding readily enough The sheer inertia of an enormous and complex organization the drag of powerful vested interests the helplessness of individuals with intelligent schemes of reform this is what strikes the historian in studying the church of the later Middle Ages Martin Luther a devout and forceful monk sought only to cleanse the church of its abuses and return to the spiritual guidance of the Scriptures But as it turned out western Christendom split into two camps a division as stirring as fearful as portentous to the sixteenth century world as any in Europe s history Offering an engaging and accessible introductory history of the Reformation Harbison focuses on the age s key individuals institutions and ideas while at the same time addressing the slower less obvious tides of social and political change A classic and long out of print synthesis of earlier generations of historical scholarship on the Reformation told with clarity and drama this book concisely traces the outlines interlocked and interwoven as they were of the various phases that comprised the Age of Reformation

The Age of the Reformation Roland Herbert Bainton, 1984 With the aid of over 60 important sources most of them translated and abridged by the author this brief history brings an age of upheaval into sharp focus It succinctly shows how a compelling ideology the Christian faith shaped the history of the Reformation The religious revolution of the sixteenth century shattered an ecclesiastical structure and quickened a universal faith The Christian heritage that the Reformation revitalized and transmitted to our time is still the source of western man s ability to talk in terms of universal justice humanity and the rights of man

Jews This term which expresses a medieval conflation of three separate traditions the biblical destroyers Gog and Magog the unclean peoples enclosed by Alexander and the Ten Lost Tribes of Israel is a hostile designation of wickedness The Red Jews played a major role in late medieval popular exegesis and literature and appeared in a hitherto unnoticed series of sixteenth century pamphlets in which they functioned as the medieval spectacles through which contemporaries viewed such events as Turkish advances in the Near and Middle East The Red Jews disappear from the sources after 1600 and consequently never found their way into historical scholarship
