arguments for the benefit of war fighting robots posit that these robots will eliminate war and the risk of war but there is much more to the story Arguments for sex and companion robots proffer that they will benefit the fringe community or help those who do not have a relative to care for them but again there are many ethical and philosophical problems with these arguments Robotic Persons not only introduces the reader to these issues but also gives an evangelical response to each There is presently no evangelical work addressing these critical issues Robotic Persons will argue that granting legal personhood to qualified robots will further prevent dehumanizing use of robots and protect human dignity and value
