Ageless Ageing:

Contemporary Cinema and 'Old Age' Josephine Dolan, 2018-02-06 This book is the first to explore old age in cinema at the intersection of gender ageing celebrity and genre studies It takes its cue from the dual meanings of silvering economics and ageing and explores shifting formulations of old age and gender in contemporary cinema Broad in its scope the book establishes the importance of silver audiences to the survival of cinema exhibition while also forging connections between the pleasures of old age films consumer culture the economy of celebrity and the gendered silvering of stardom The chapters examine gendered genres such as romantic comedies action and heist movies the prosthetics of costume and CGI enabled age transformations Through this analysis Josephine Dolan teases out the different meanings of ageing masculinity and femininity offered in contemporary cinema She identifies ageing femininity as the pathologised target of rejuvenation while masculine ageing is seen to enhance an enduring youthfulness This book has interdisciplinary appeal and will engage scholars interested in old age and gender representations in contemporary cinema

Ageless Andrew Steele, 2021-03-23 A fascinating look at how scientists are working to help doctors treat the aging process itself helping us all to lead longer healthier lives Sanjay Gupta MD Aging not cancer not heart disease is the underlying cause of most human death and suffering The same cascade of biological changes that renders us wrinkled and gray also opens the door to dementia and disease We work furiously to conquer each individual disease but we never think to ask Is aging itself necessary Nature tells us it is not there are tortoises and salamanders who are spry into old age and whose risk of dying is the same no matter how old they are a phenomenon known as biological immortality In *Ageless* Andrew Steele charts the astounding progress science has made in recent years to secure the same for humans to help us become old without getting frail to live longer without ill health or disease

Ageing, Diversity and Equality Sue Westwood, 2018-10-31 Current understandings of ageing and diversity are impoverished in three main ways Firstly with regards to thinking about what inequalities operate in later life there has been an excessive preoccupation with economic resources On the other hand less attention has been paid to cultural norms and values other resources wider social processes political participation and community engagement Secondly in terms of thinking about the who of inequality this has so far been limited to a very narrow range of minority populations Finally when considering the how of inequality social gerontology's theoretical analyses remain under developed The overall effect of these issues is that social gerontology remains deeply embedded in normative assumptions which serve to exclude a wide range of older people *Ageing Diversity and Equality* aims to challenge and provoke the above described normativity and offer an alternative approach which highlights the heterogeneity and diversity of ageing associated inequalities and their intersections The Open Access version of this book available at <https://www.taylorfrancis.com/books/9781351851329> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 licence
