Caravans of Mars Ed Andrews,1989-09-01 *Stoppelords of Mars and Caravans of Mars* John A. Theisen,Ed Andrews,2000-08-01 *Utopian Pasts and Futures in the Contemporary American Novel* Tim Lanzendorfer,2023-09-04 *Utopian Pasts and Futures in the Contemporary American Novel* highlights the emergence of a literary mode speculative historicism over the past two decades in U S literature Discussing in depth novels by writers such as Ken Kalfus Joyce Carol Oates and Colson Whitehead among others it integrates questions of critical method genre form and literary theory all of which have some urgency today Addressing itself to the question of how to read this mode through a form of utopian hermeneutics this study explores the formal constitution narrative choices and place in the wider literary market of a mode that it believes to be constitutively important for understanding American literature s struggle with the possibility of imagining hopeful futures A Year of Vengeance Edward Stratford,2017-09-25 Despite significant advances in annual chronology the Old Assyrian trade fundamentally lacked a regime of time at the level of the merchant s commercial and personal activities In this book Stratford sets out to recapture time through narrative drawing on the relationship between the two described by the philosopher Paul Ricoeur Investigating a possible case of revenge leads to weaving together more than a hundred mostly undated documents to form a narrative within the course of a single year of vengeance including trade disruptions illnesses and commerce This process demonstrates relationships between document and material context and time and narrative Along the way Old Assyrian commercial time and its tempos become more clear leading to descriptions of the scale of the trade and the nature of Old Assyrian archives as they have survived Ultimately the Assyrians involved appear as the earliest historical individuals in world history The treatment of alim a um s apparent revenge comprises a practicum in historical interpretation in the ancient world of interest to practitioners and theoreticians of both the ancient world and world history *The Rising* Kristen Ashley,2020-07-28 Once upon a time in a parallel universe there existed the continent of Triton The Beast has risen Airen is at war The queen is dead The coven is incomplete And things are uncertain under the sea Now the unicorns and mermaids and witches and warriors and the strangers from other lands all must band together to face The Beast and save Triton The unions have been realized Silence and Mars True and Farah Cassius and Elena and Aramus and Ha Lah are at their fullest powers But the gods require sacrifice The sacrifice of pure love If it isn t given the Beast will prevail and Triton will fall It cannot be escaped they must use all their might and magic The Rising is nigh *Researches Into the Origin of the Primitive Constellations of the Greeks, Phoenicians and Babylonians* Robert Brown,1899 New Directions in Diaspora Studies Sarah Illott,Ana Cristina Mendes,Lucinda Newns,2018-07-02 This collection brings together new critical approaches to diaspora studies branching out to areas such as literary studies visual culture and museum studies and explores them in relation to a variety of fictional works cultural traditions theoretical paradigms and geo political contexts The innovation of this volume lies in the interplay of both texts and theoretical insights from these different areas of

cultural analysis drawn together to probe diverse manifestations of diaspora while pointing out new directions of critique Moving between representations of real and imaginary violent and utopian past present and future diasporas contributors demonstrate the ways in which authors performers and artists are establishing new modes of representing and imagining diaspora in an increasingly globalised age Contributions are organised into sections on performance speculative fiction city spaces affective or violent diasporas and silence and voice Bringing together these wide ranging histories contexts and media allows for dialogue across vastly divergent experiences and representations of diaspora and opens up a theoretical debate on the changing nature of this field of study
