Cardiac Allograft Rejection:

Cardiac Allograft Rejection G. William Dec, Manel Ballester, 2001-09-30 Heart transplantation remains one of the major scientific achievements of twentieth century medicine. During the past four decades it has evolved from an unproven experimental surgical technique to the most effective form of therapy for refractory end stage heart disease. It has captured the public's imagination and expanded our understanding of fundamental immunologic mechanisms that are responsible for cellular and humorally mediated immunity. Despite its successes many clinical and scientific problems remain. One or more bouts of acute cellular or humoral vascular rejection will occur in over 75% of transplant recipients despite current immunosuppressive strategies. Further rejection directly results in approximately 20% of post transplant deaths and is believed to play a major role in the development of late allograft dysfunction and coronary vasculopathy. This book by international experts in the fields of transplantation medicine, immunobiology and cardiac imaging provides the reader with an up to date concise summary of the latest developments in the diagnosis and treatment of acute cardiac rejection. It is axiomatic that a more complete understanding of the pathogenic processes involved in rejection will ultimately lead to its prevention. This volume will be useful to transplant cardiologists, cardiovascular surgeons, cardiac pathologists and transplant scientists who seek to prolong the lifespan and improve the quality of life of their transplant recipients.

Mechanisms of Cardiac Allograft Rejection James Jinsup Yun, 2001 [Clinical Guide to Heart Transplantation](#) Jon Kobashigawa, 2017-03-29 This is a concise review of up to date concepts and techniques in the discipline of heart transplantation. It is a review and reference for practitioners managing patients with advanced heart disease including patients with end stage heart failure, mechanical circulatory support or transplant recipients. Heart failure is a major public health issue with a prevalence of over 5.8 million in the USA and over 23 million worldwide and rising. The lifetime risk of developing heart failure is one in five. Heart failure carries substantial morbidity and mortality with 5 year mortality that rival those of many cancers. As heart transplantation remains the best treatment option for patients with end stage heart failure, this primer will provide valuable information and management strategies for physicians caring for these patients. Also due to continued shortage in donor organs, heart transplantation is a limited resource which further underscores the importance of appropriately evaluating patients for transplant candidacy and managing their pre, peri and post transplant care for maximum benefit and best outcomes.

Cardiac Transplantation Jeffrey D. Hosenpud, Adnan Cobanoglu, Douglas J. Norman, Albert Starr, 2012-12-06 Over the past ten years cardiac transplantation has evolved from an experimental procedure performed in a handful of university centers to a viable therapeutic modality now performed in more than 150 centers worldwide. The complexity of the procedure, the changing immunosuppressive regimens and the follow up care have necessitated a multidisciplinary approach involving a variety of medical, nursing and social sciences specialties and subspecialties. In addition, health care trainees and referring physicians are increasingly becoming involved in the care of the cardiac transplant recipient. This book does not

attempt to be a comprehensive treatise on cardiac transplantation rather we hope that it will serve as a manual and guideline for all health professionals involved in cardiac transplantation JEFFREY D HOSENPUD M D Contents Preface v Contributors IX 1 Cardiac Transplantation An Overview JEFFREY D HOSENPUD AND ALBERT STARR Immunogenetics and Immunologic Mechanisms of 2 Rejection 15 DOUGLAS J NORMAN 3 Medical Therapy Tailored for Advanced Heart Failure 33 LYNNE WARNER STEVENSON 4 Ventricular Assistance as a Bridge to Cardiac Transplantation 53 D GLENN PENNINGTON AND MARC T SWARTZ Recipient Selection for Cardiac Transplantation 71 5 GEORGE A PANTELY 6 Donor Selection and Management for Cardiac Transplantation 85 JEFFREY SWANSON AND ADNAN COBANOGLU 7 Operative Techniques and Early Postoperative Care in Cardiac Transplantation 95 ADNAN COBANOGLU Endomyocardial Biopsy Techniques and Interpretation of 8 The Pathology of Cardiac Transplantation Ornella Leone, Annalisa Angelini, Patrick Bruneval, Luciano Potena, 2017-01-20 This is the first book to focus entirely on the role of pathology in cardiac transplantation linked to the clinical perspective through clinical pathological correlation multidisciplinary team working and collaborative research It provides a scientific framework with up to date pathological protocols and classification schemes and guides the reader through the chronological phases of the transplant process in a step by step approach Topics include end stage heart failure with pathologies encountered in the native heart current issues surrounding donor selection the multiple faces of rejection pathology correlated with clinical management and immunology other post transplant complications details of pediatric and combined heart other organ transplantation and a useful practical appendix Many high quality images and illustrative cases are presented along with learning points and ample references Transplantation medicine today is continuously changing as collaborative research into novel diagnostic techniques and immunosuppressive therapies translates into improved recipient management and survival This book is aimed at practicing transplant pathologists and specialist trainees It will also appeal to general pathologists and to physicians and surgeons involved in cardiac transplantation who need to understand the role of pathology in the clinical management of transplant recipients Mechanisms, Diagnosis and Treatment of Cardiac Allograft Rejection Iman Hamour, 2014 **Textbook of Organ Transplantation Set** Allan D.
