This volume of Bertrand Russell s Collected Papers finds Russell focused on writing Principia Mathematica during 1905 08 Eight previously unpublished papers shed light on his different versions of a substitutional theory of logic with its elimination of classes and relations during 1905 06 A recurring issue for him was whether a type hierarchy had to be part of a substitutional theory In mid 1907 he began writing up the final version of Principia now using a ramified theory of types and eleven unpublished drafts from 1907 08 deal with this Numerous letters show his thoughts on the process The volume s 80 page introduction covers the evolution of his logic from 1896 until 1909 when volume I of Principia went to the printer
