

VENICE

Founded 1,500 years ago on a cluster of mudflats in the centre of the lagoon, Venice rose to become Europe's main trading post between the West and the East, and at its height controlled an empire that extended from the Dolomites to Cyprus. The fabric of the present-day city, astonishingly well preserved, bears testimony to Venice's former grandeur in virtually every square and street.

In the heyday of the Venetian Republic, some two hundred thousand people lived in Venice, three times its present population. Merchants from Europe and western Asia maintained warehouses here; transactions in the banks and bazzanos of the Rialto dictated the value of commodities all over the continent; in the dockyards of the Arsenal the workforce was so vast that a warship could be built and fitted out in a single day; and the Piazza San Marco was thronged with people here to set up deals or report to the Republic's government. Nowadays it's no longer a buzzing metropolis but rather the embodiment of a fabulous past, dependent for its survival largely

on the people who come to marvel at its relics.

The monuments that draw the largest crowds are the Basilica di San Marco – the mausoleum of the city's patron saint – and the Palazzo Ducale or Doge's Palace. Certainly these are the most imposing structures in the city, but a roll-call of the churches worth visiting would feature more than a dozen names. Many of the city's treasures remain in the churches for which they were created, but a sizeable number have been removed to one or other of Venice's museums, with the Accademia holding the lion's share. This cultural heritage is a source of endless fascination, but you should also discard your itineraries for a day and just wander

Best place for a picnic

The beauty of the cityscape and the price of restaurants make picnicking an enticing proposition in Venice – but there are strict by-laws against picnics in the city squares. So buy provisions at Rialto market then hop on a vaporetto to Giardini (see page 97), or to the Biennale Gardens where you'll find shade, a bit of greenery, and a fabulous panorama of Venice and the lagoon.

Imagining Italy Michael Hollington, John Jordan, Catherine Watts, 2010-08-11. This book is a companion volume to Dickens and Italy, edited by Michael Hollington and Francesca Orestano, which aimed to fill an important gap in our understanding of England's paramount novelist by studying his personal, political, and literary relation to the foreign country he loved best of all of those he visited. Its focus is wider and its scope more ambitious and speculative, without in any way leaving Dickens or his writings about Italy behind. The attempt here is to approach the Victorian fascination with that country from a broader, more theoretical perspective in which several current debates about travel writing are taken up and critically redeployed. The book is articulated in three parts: Part One concerns what the writings of Dickens and other Victorians can tell us about the history and theory of travel and travel writing; Part Two, what they can tell us about particular Victorian writers themselves and their work; In Part Three, the focus shifts in order to compare writing and visual representations of the experience of abroad in general and Italy in particular in an era when what can be thought of as modern visual culture is gradually taking shape. The book aims to show that the study of how Victorians imagined Italy can lead to a deeper understanding of some of the stereotypes that continue to inform contemporary tourism. **Waterstone's Guide to Books** Waterstone & Co, 1988. **The Grand Tour** Tim Moore, 2002-06. The tradition of the Grand Tour was started in 1608 by an intrepid but down at the heels English courtier named Thomas Coryate, who walked across Europe, miraculously managed to return home in one piece, and wrote a book about his bawdy misadventures. With *The Grand Tour*, Tim Moore proves not only that he is Coryate's worthy successor but one of the finest and funniest travel writers working today. Armed with a well-thumbed reprint of Coryate's book, Moore donned a purple plush suit and set off in a second-hand and highly temperamental Rolls Royce through France, Italy, Germany, Switzerland, and Holland. Like Coryate, Moore possesses an astonishing ability to land himself in humiliating predicaments. His account of his hilariously memorable misadventures on Venice's canals on one fateful afternoon is by itself worth the price of admission. Moore brings new life to the Old World and in the process sends
