## **Career Shock:**

**Research Handbook of Careers in the Gig Economy** Jos Akkermans, Anne Keegan, François Pichault, 2025-03-12 This Research Handbook explores how gig workers' careers fit into the evolving employment landscape. It provides essential insights into how individuals can navigate the gig economy successfully and sustainably. **Exited** Camille Kandiko Howson, Christina Hughes, Malcolm Tight, 2025-09-02 **Exited** considers the experience of those academic workers who find themselves abruptly expelled, terminated, or exited from their contracts and workplaces. This is an increasingly common occurrence for academic workers with middle or senior management roles and one that needs both exposure and discussion.

**Research Handbook on Older Workers and Occupational Health and Safety** Annet H. de Lange, Trude Furunes, 2025-12-16 This timely Research Handbook provides a comprehensive overview of how aging affects occupational health and safety. Experts explore global trends and scientific theories on workplace aging to gain deeper insight into underlying issues in the field and identify areas for improvement. **7th International Conference on Tourism Research** Prof Rishi Balkaran, Dr Chris Hattingh, 2024-03-18 These proceedings represent the work of contributors to the 7th International Conference on Tourism Research ICTR 2024, hosted by the Centre for Tourism Research in Africa at the Cape Town Hotel School, Cape Peninsula University of Technology, South Africa, on 18-19 March 2024. The Conference Chair is Prof Rishi Balkaran and the Programme Chair is Dr Chris Hattingh, both from Cape Peninsula University of Technology, CPUT, South Africa. ICTR is a well-established event on the academic research calendar and now in its 7th year, the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. Today more than ever, there is a need for research and scientific guidance as the tourist sector struggles to cope with the consequences of the COVID-19 pandemic, inflation, socio-political turbulences, climate change, and disaster risk.

**Diversity and Inclusion in Italy** Simone Pulcher, Stefano Basaglia, Simona Cuomo, Zenia Simonella, 2025-05-05 History, geography, culture, and the legal framework influence the dynamics of inclusion and exclusion in and around organisations. Yet most academics and practitioners still approach themes of diversity in organisations relying on standardised discourses and practices often transferred uncritically from the Anglo-Saxon context. Adopting a contextual approach that takes into account the specificities of the Italian context, this book explores a wide array of themes related to diversity and inclusion in organisations and society. Focusing on the Italian context, the book offers new insights into themes already well established in the diversity debate, such as gender, age, and disability. It also provides an opportunity to reflect on categories, organisational forms, and stakeholders rarely associated with diversity, such as social class, family businesses, and trade unions, but also to consider the role of technology and the arts as tools for both inclusion and exclusion. The contributions draw on different disciplines and perspectives and provide insights relevant not only with respect to Italy but also to other national and

international contexts This volume is aimed at both researchers and practitioners who wish to develop a more nuanced and mature understanding of diversity in organisations and society **Management** Arthur G. Bedeian,1993 *Career Shock* James C. Cotham,1989 Career shock is when you realize your career quest has taken you down a dead end road or even to termination Career Shock provides essential insights and techniques for reversing the downside and taking charge of one's own career destiny **Brenner V. Montross,Theresa E. Kane,Robert Jay Ginn,1997 Shows parents how to help their children make career decisions *Colorado Medicine* ,1914

**The Automobile** ,1909 Motor Field ,1909 *Modeling Earnings Dynamics* Joseph G. Altonji,2009 In this paper we use indirect inference to estimate a joint model of earnings employment job changes wage rates and work hours over a career Our model incorporates duration dependence in several variables multiple sources of unobserved heterogeneity job specific error components in both wages and hours and measurement error We use the model to address a number of important questions in labor economics including the source of the experience profile of wages the response of job changes to outside wage offers and the effects of seniority on job changes We provide estimates of the dynamic response of wage rates hours and earnings to various shocks and measure the relative contributions of the shocks to the variance of earnings in a given year and over a lifetime We find that human capital accounts for most of the growth of earnings over a career although job seniority and job mobility also play significant roles Unemployment shocks have a large impact on earnings in the short run as well a substantial long long term effect that operates through the wage rate Shocks associated with job changes and unemployment make a large contribution to the variance of career earnings and operate mostly through the job specific error components in wages and hours **Career Bounce-back!** J. Damian Birkel,Stacey J. Miller,2003-03 Enabling individuals to weather the trauma of unemployment this guide offers real world advice from a victim and survivor of downsizing and restructuring Unemployed professionals learn practical steps for managing the grief that follows job loss and methods for guiding and protecting their families through the challenges of unemployment Solid effective strategies for recovery and reemployment are featured along with motivational examples of fellow professionals who have successfully reentered the job market Covered are issues such as gracefully parting ways with a former employer coping with feelings of powerlessness and fear maintaining and rebuilding networks finding the hidden job market through informational interviewing and effectively marketing oneself to perspective employees
