Regional Economic Outlook, October 2021, Western Hemisphere: A Long Winding Road to Recovery

International Monetary Fund. Western Hemisphere Dept., 2021-10-21 An economic recovery is underway in Latin America and the Caribbean LAC but the pandemic still casts shadows on much of the region The recovery was robust in the first quarter of 2021 but lost momentum in some countries in the second quarter reflecting the rebound in COVID 19 cases Real GDP is projected to grow by 6.3 percent in 2021 followed by a more moderate growth of 3 percent in 2022 but would not catch up with pre pandemic trends in the medium term as persistent weakness in labor markets raises risks of scarring Broadly favorable external conditions high commodity prices and pent up demand support short term growth while monetary and fiscal policy reversals work in the other direction Risks to the outlook are tilted downward Main downside risks are the emergence of more transmissible and deadlier COVID 19 variants tightening of global financial conditions sovereign debt rollover risks and social unrest as a year with heavy election schedule looms Fiscal policy should allocate sufficient resources for health spending including vaccination and continue to support households and firms in a more targeted fashion while the pandemic persists backed by credible assurances of medium term debt sustainability to maintain access to finance Monetary policy has started to address inflationary pressures but should continue to support economic activity insofar as the dynamics of inflation expectations permit If rising inflation threatens to de anchor inflation expectations central banks should tighten monetary policy to signal a commitment to inflation targets and avoid persistent increases in inflation Preemptive and decisive action should be accompanied with clear and transparent communication Financial policy should shift from blanket support to targeted support of viable firms to ensure that necessary labor and capital reallocations are not hindered Supply side policies should foster inclusive growth including through progressive and growth friendly tax reforms and measures to intensify climate change adaptation and mitigation

Comercio en las Americas Jose Manuel Salazar-Xirinachs, Maryse Robert, 2010-12-01 A Brookings Institution Press and the Organization of American States publication This is the Spanish language version of Toward Free Trade in America In the past 15 years the nations of the Western Hemisphere have staged a remarkable revolution in the way they trade with their neighbors First after decades of restrictive import policies several countries began to liberalize their trade and investment regimes Then beginning a decade ago numerous bilateral and sub regional trade agreements were achieved to serve as vital complements to domestic reforms and to foster trade flows among member countries At the Second Summit of the Americas in 1998 negotiations among 34 democracies were launched to establish the Free Trade Area of the Americas FTAA This report takes stock of the remarkable progress to date in the development of free trade in the Western Hemisphere It examines trade flows between countries in the same regional groupings and between members of different sub regional arrangements The report describes the main characteristics of the trade arrangements signed between countries of the

Hemisphere and explores the development of trade rules in these arrangements Finally the report details recent advances in the construction of the FTAA **Economic Survey of Latin America and the Caribbean** ,2006 **Routledge Spanish Dictionary of Business, Commerce and Finance Diccionario Ingles de Negocios, Comercio y Finanzas** Emilio G. Aguirre,2008-06-18 European Review of Latin American and Caribbean Studies ,1998 **Self-help Housing, the Poor, and the State in the Caribbean** Robert B. Potter,Dennis Conway,1997 This collection of essays represents the first in depth scholarly treatment of housing policies and conditions throughout the Caribbean The contributors consider both the performance of the state and the autonomous activities of the poor making this volume an invaluable contribution to future planning and debate The essays each dealing with a specific island or group of islands collectively address four main themes the history of housing provision since colonization current housing conditions state policies toward housing provision and the changing relationships between governments international funding agencies the private housing sector and the peoples responses These investigations not only highlight the often alarming problems that Caribbean nations face in providing adequate housing for the poor but also implicate governments in past and present failures and poor performances However the essays are also filled with useful insights about the ways in which progressive housing policies can be formulated and implemented For example the volume suggests that the Caribbean s rich heritage of folk and vernacular architectural styles should be taken into serious account in future planning efforts In a concluding synthesis chapter the volume editors argue that a more progressive future is attainable if all parties exhibit the political will that the poor have already demonstrated Caribbean Abstracts Koninklijk Instituut voor Taal-, Land- en Volkenkunde (Netherlands).
