Carillons of Belgium and Holland William Gorham Rice,1914 **Carillons of Belgium and Holland; Tower Music in the Low Countries** William Gorham Rice,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1914 edition Excerpt CHAPTER VII Die wahre Musik ist allein fürs Ohr Goethe PECULIAR charm of carillon music is due to the invisibility of the player The element of mystery is in the notes that float down from the tower and while we know that there is a performer his movements do not distract us from completely giving ourselves up to the enjoyment of the sounds To Stevenson we have seen perception of the charm came as he floated on an inland river to another voyager it was as he sailed at evening on the North Sea It was when cruising in a fishing boat off the coast that I first heard the keyboard carillon and guessed that a living artist and not a mere mechanical contrivance was making music which indeed seemed the moonlight made audible in his far off unseen tower beyond the darkling sea levels and the white glimmering fog drifts Carillons have a peculiar association with the water for not only do many of them constantly sound over it but the Dutch and the Flemish are by nature oversea traders The carillonneur too climbing his tower in fair weather and foul affected by neither rain sun nor wind is not unlike the captain on his bridge And again the view from the tower over the flat Netherlandish countryside has much to remind one of ocean reaches Not a few travellers must have felt this similarity for the Dutch landscape has the same glistening reposeful beauty as has the sea in calm sunny weather De Amicis describes such a scene From the top of the tower S Lawrence s the whole of Rotterdam can be seen at a glance with all its little sharp red roofs its broad canals its ships scattered among houses and all about the city a vast green plain intersected by canals bordered by trees sprinkled with windmills and villages Carillons of Belgium and Holland William Gorham Rice,2023-07-18 Carillons of Belgium and Holland is a fascinating exploration of the history and music of carillons in the Low Countries The author delves into the origins and development of these unique musical instruments which are played by striking large bells with a keyboard He also introduces readers to some of the most renowned carillonneurs of the region and their distinctive styles This book is a must read for anyone interested in music history or Belgian and Dutch culture This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
