Caring For Children Student Heinemann Child Care:

Caring for Children Penny Tassoni,2001-07-10 Aimed at Level 1 students this Student Book is presented in full colour double page learning blocks designed to motivate students at this level *Child Care and Education* Penny Tassoni,2000 This student book is written specifically for the CACHE Certificate in Child Care and Education It covers child development physical care preparing food and drink and caring for babies Case studies help students relate the course theory to practical work situations **CACHE Entry Level 3/level 1 Caring for Children** Penny Tassoni,2011 *The Health and Social Needs of Young Adults with Physical Disabilities* Andrew Thomas,Martin Bax,Diane Smyth,1989 This book addresses a topic that has received surprisingly little attention to date the health and social needs of young adults with physical disabilities Following an extensive review of the contemporary literature on the subject the authors report an in depth study on a large sample of physically disabled 18 to 25 year olds living in two survey areas one urban and one semirural The study which included pediatric examinations and interviews by a social psychologist found that a large proportion of subjects face social and medical problems for instance They have serious health needs that are not being met by the statutory services they left school with less than adequate skills to enable them to lead an independent adult life they are without a daytime occupation or attend day centers that are described as unstimulating places they do not receive all the financial benefits to which they are entitled they are isolated from their peers and lack the social skills to interact with others in a positive and successful way Parents and guardians were also found to receive little physical or emotional support These findings underline the need for a better system of providing and coordinating services for this client group and the authors call for the formation within each local health authority area of an Adult Disability Service that would have a clinical and planning role in terms of health care and that would act as a linchpin in the coordination of health educational social and voluntary services Although this work relates specifically to service provision in the United Kingdom it is felt that the conclusions and recommendations are also broadly applicable to the situation in other countries *YC Young Children* ,2003 **Resources in Education** ,2001 National Library of Medicine Current Catalog National Library of Medicine (U.S.),1971 Medical and Health Care Books and Serials in Print ,1997 **Subject Guide to Books in Print** ,1997 Human Rights, Culture and the Rule of Law Jessica Almqvist,2005-09-12 This new book examines the relationship between culture and respect for human rights It departs from the oft made assumption that culture is closely linked to ideas about community Instead it reveals culture as a quality possessed by the individual with a serious impact on her ability to enjoy the rights and freedoms as recognised in international human rights law in meaningful and effective ways This understanding redirects attention towards a range of issues that have long been marginalised but which warrant a central place in human rights research and on the international human rights agenda Special attention is given to the circumstances induced by cultural differences between people and the laws by which they are expected to live The circumstances are created by differing tools know how and skills cultural
