**The Journey of Self-Care From The Inside Out 2.0** James M. Baker Jr.,2025-08-16 The purpose of this book is to help you focus on self care practices for wholeness in mind body and spirit I am not writing on this subject to give any credit to self for selfie reasons The word self today connects to a selfie generation Selfie pictures and selfie sticks create a thought process of self absorption Being self centered is essentially not fulfilling and leaves people feeling empty Conversely focusing on serving other people cultivates a higher purpose and fulfillment Helping others offsets the selfish and self centered proclivities of our human nature My contention is in pouring ourselves out for the sake of others We need to have the means to receive recalibrate and be restored My self care approach intends to alter these understandings to an altar ed space of first caring for the self Moreover before you can fully love and be in a relationship with others you must first love yourself I liken this to travel on an airplane Before departure the airline attendants include this one rule during their oxygen instructions announcements In the event of a decompression an oxygen mask will automatically appear in front of you To start the flow of oxygen first pull the mask towards yourself Place it firmly over your nose and mouth secure the elastic band behind your head and breathe normally At this point after you have secured your well being you are then in a position to help anyone who needs assistance
