Hearing Voices and Other Matters of the Mind Robert N. McCauley, George Graham, 2020-05-04 Hearing Voices and Other Matters of the Mind examines the long recognized and striking similarities between features of mental disorders and features of religions Robert McCauley and George Graham emphasize underlying cognitive continuities between familiar features of religiosity of mental disorders and of everyday thinking and action They contend that much religious thought and behavior can be explained in terms of the cultural activation of humans natural cognitive systems which address matters that are essential to human survival hazard precautions agency detection language processing and theory of mind Those systems produce responses to cultural stimuli that may mimic features of cognition and conduct associated with mental disorders but are sometimes coded as religious depending on the context Their approach promises to shed light on both mental abnormalities and religiosity

Locke's Science of Knowledge Matt Priselac, 2016-10-26 John Locke's *An Essay Concerning Human Understanding* begins with a clear statement of an epistemological goal to explain the limits of human knowledge opinion and ignorance The actual text of the Essay in stark contrast takes a long and seemingly meandering path before returning to that goal at the Essay's end one with many detours through questions in philosophy of mind metaphysics and philosophy of language Over time Locke scholarship has come to focus on Locke's contributions to these parts of philosophy In Locke's *Science of Knowledge* Priselac refocuses on the Essay's epistemological thread arguing that the Essay is unified from beginning to end around its compositional theory of ideas and the active role Locke gives the mind in constructing its thoughts To support the plausibility and demonstrate the value of this interpretation Priselac argues that contrary to its reputation as being at best sloppy and at worst outright inconsistent Locke's discussion of skepticism and account of knowledge of the external world fits neatly within the Essay's epistemology
