Treatment of Postoperative Complications After Digestive Surgery Miguel A. Cuesta,H. Jaap Bonjer,2013-11-22 Any surgical intervention elective or acute may lead to postoperative complications Moreover the pertaining approach laparoscopic or open will probably not differ in the morbidity rate after surgery Complications that occur after a surgical intervention can be classified as major or minor Major complications to the digestive tract after surgery imply in most of cases a leakage of an anastomosis bleeding in the abdominal cavity or in the tract the appearance of intraperitoneal abscesses or surgical site infections and wound dehiscence These complications depending on the organ affected upper GI HPB tract or colorectal are associated with high morbidity and mortality Early suspicion and diagnosis followed by an early and effective treatment is imperative in order to reduce the morbidity and mortality Adequate treatment will involve a good coordination of the three disciplines involved in treatment the surgeon the intervention radiologist and the gastroenterologist Approach of these postoperative complications is changing constantly and these changes are not properly known by general and more specialized digestive surgeons daily

involved in the treatment of these diseases The proposal for this book is to offer a systematic description of the most frequent complications occurring in the three above mentioned parts of the digestive tract In this way the reader will have access to a practical book in which every current complication can be easily recognized along with relevant information as guide for an adequate treatment

Complications in Acute Care Surgery Jose J. Diaz, David T. Efron, 2016-11-14 This text provides the reader a starting point for the most difficult and uncommon complications in acute care surgery It is designed to provide options to that ubiquitous intra operative or bedside question Well now what do we do with this The topics have been chosen for the extreme difficulty of management and the surprising regularity that they present and the lack of large volume of accumulated evidence where expert experience remains vital The volume editors present a list of clinical scenarios intra operative findings and ethical circumstances that few general surgeons in their career will see in their career The authors represent the most prolific surgeons in practice today They present how they would manage these challenging acute care surgery problems based on their vast clinical experience Here these surgeons share their personal experience with the most difficult cases The text is divided into 4 parts The first part is Global Patient Issues when a singular surgical problem presents itself in a very complicated patient with an extensive list of unstable comorbid diseases The second part is Specific Disease Issues This is a surgical text and as such each issue is an unexpected intra operative finding and expert management The third part is Post Operative Issues and as any seasoned surgeon knows is the most critical part of managing a complicated surgical case The last section is Challenging Ethical Scenarios The text is designed to provide the surgeon in training or the seasoned general surgeon unique clinical or operative options for the care of their patients
